See our website www.learndevon.co.uk for full details of all courses available.

Enrol online or call 01237 472462

27 February 2023

Dear Club / Organisation

I am hoping that you would be kind enough to display the enclosed poster on your noticeboard or in a prominent position within your venue.

Learn Devon are supporting a Government-funded programme to help adults improve their confidence with numeracy skills in everyday life, such as helping children with homework and budgeting money. As well as this, it could potentially help your members and visitors unlock new job opportunities or pave the way for further study, for example starting an apprenticeship, returning to college or going to university.

We are offering a range of short courses, face to face in North Devon and online across the county, these are FREE and available to anyone over 19 years of age, who does not already have a GCSE at grade C (or equivalent) in maths.

If you thought that this was something your members would be interested in, it may be possible for us to come to your venue and deliver an appropriate session.

To discuss this possibility further, or if you have any questions please call our friendly team in the Bideford office on 01237 47246 or email us at bideford@learndevon.co.uk

Many thanks and I hope you consider that this is something you could support by displaying our poster and helping our local communities.

Yours faithfully

The Bideford team
