

The Three Dinosaurs and the big fierce Lava Monster.

Once upon a time there was three dinosaurs. They put rocks on the side and connected it to a river. The waterfall was fast and wavy and a rainbow comes out. The three dinosaurs put a slide under the waterfall. Out of nowhere, a volcano pops up, it erupts and a Lava Monster comes out and destroys the three dinosaur's fun. The dinosaurs were really, really angry! The volcano starts to vanish, the Lava Monster quickly runs back into it. The three dinosaurs carry on having fun and they live happily ever after.
