Year 2	96.5%
Year 3	97.2%
Year 4	94.4%
Year 5	93.1%
Year 6	94.3%

My child is ill—how long should they stay at home? Picking up bugs is part of growing up and helps children to build a strong immune system. We know that there are times when your child needs to stay at home because they are not well enough to be in school. You know your child best, but this information from the NHS helps if you are unsure as to whether you should keep your child home and for how long.

Do I need to keep my child off school?

Whooping Cough 48 Hours after commencing antibiotics	Chicken Pox Until all spots have crusted over	Conjunctivitis No need to stay off but school or nursery should be informed	Diarrhoea & Vomiting 48 hours from last episode	Glandular Fever No need to stay off but school or nursery should be informed	Hand, foot & mouth No need to stay off but school or nursery should be informed
Measles or German Measles 4 days from onset of rash	Mumps 5 days from onset of swelling	Scabies Until after first treatment	Scarlet Fever 24 hours after commencing antibiotics	Slapped Cheek No need to stay off but school or nursery should be informed	
Impetigo Until lesions are crusted & healed or 48 Hours after commencing antibiotics	Flu Until recovered	Head Lice No need to stay off but school or nursery should be informed	Threadworms No need to stay off but school or nursery should be informed	Tonsillitis No need to stay off but school or nursery should be informed	

HSC Public Health Agency
