

Restless Development and would like to invite your pupils to take part in the Schools Triathlon Series 2026 at King's College Taunton on Sunday 28th June 2026.

This is a parent-led event, with parents registering the children directly and taking them on the day – you and the school are not asked or expected to attend.

About The Event

The [Knight Frank Schools Triathlon Series](#), organised by the charity Restless Development, is a unique sports fundraising event, designed specifically for children aged 7 - 13.

The Schools Triathlon event at KCT is for all school pupils in Years 3-8. The children form teams of 4 (coming up with suitably amusing team names themselves!), with all team mates doing all 3 disciplines as a relay. **Our events are an opportunity for children of all abilities to take on a new sporting challenge** - whilst giving back to the wider community through their fundraising - creating a friendly and fun ethos to the series. Since starting in 2015, year on year we've had a fantastic response from schools, with both the pupils and parents really enjoying the day.

More details on exactly how the event works can be found [here](#). Or you can [click here](#) to watch the video produced by one of our other host schools from their event in 2024 to see the day come to life.
