

WHAT DOES A PARISH NURSE DO?

Parish Nurses work with people of all ages and backgrounds, with any faith or none, focusing on the person rather than just a medical condition, and integrating all the different aspects of health.

Bringing health,
healing and
wellness to local
communities

Yvonne is DBS checked and registered with the Nursing and Midwifery Council. She holds the following nursing qualifications:

*Registered General Nurse
Health Studies BSc
International Board-Certified
Lactation Consultant (IBCLC)
Specialist Community Public Health
Nursing BSc*

ABOUT YVONNE

I am an experienced nurse who has spent all of my career with babies and families with pre-school children. I am a qualified health visitor and lactation consultant and have many years of experience working in the Bideford community.

I have a passion for supporting parenting, infant feeding and parents with postnatal depression. My first focus as a Parish Nurse will be a Baby Health clinic.

Loving God.
Serving Bideford.
Transforming lives.
