# **Appledore School Curriculum Progression**

Definitions	
Explorers	Gatherers
Notice: see something and pay attention to it Choose: decide on something for a purpose Connect: make links between ideas and/or actions Investigate: find out about something (with a focus) Try: have a go at something that could be new or hard Explore: willingness to try out new things	Recognise - see something and know that it is similar to something you have seen before.  Compare/contrast - say how something is the same or different to something else.  Classify - group things according to their similarities  Describe: - recall something in detail or talk about an observation in detail  Categorise/sort - the action of classifying  Sequence - place a set of events into an order.  Observe - notice something and say how it links to the learning.  Recall - remember something learnt previously  Select: - choose the information most suitable and relevant.  Identify - understand something recalled or observed.
Explainers	Evaluators
Summarise: Write or say a shortened version to give the key facts and events.  Reason: Thinking about something in a logical way to respond to a question or challenge.  Suggest: Write or say ideas that could work in response to a question or challenge.  Demonstrate understanding: share what you know and can explain using words, images or actions.  Explain: Write or say how or why something happened the way it did Synthesise: Create statements or questions using ideas and facts.	Reach informed conclusions: sum up the main points about something supported by evidence.  Empathise: place yourself in another's position.  Justify: give reasons supported by evidence to show what you consider right or reasonable.  Hypothesise: use your past knowledge and available facts to try and predict what might happen (make a good educated guess).  Reach informed judgement: express a personal view about something supported by evidence.  Critique: consider the validity or trustworthiness of evidence  Evaluating: weigh up and judge the relative importance of something compared with other ideas and arguments.  Apply: make use of information in a given situation/

# **Phrasing**

#### Beginning to, developing and other similar phrasing means:

- Teachers or TA's guide and support children to complete activities and/or demonstrate understanding.
- In Key Stage 1 activities supported by adults through resources used, direction given and questions asked.
- In Key Stage 2 teachers will explain, model and/or demonstrate before typically ask children to complete an activity with staff available to continue to support and guide towards successful completion/achievement.

### Use, understand, know, secure and other similar phrasing means:

• Children are secure in their understanding of knowledge and concepts and confidently and independently use and apply skills to achieve a desired outcome.

#### **Exceeding**

• Independently, children use their secure understanding of knowledge and concepts and confident use and application of skills to deepen their understanding and broaden the application of their skills, including transference between subject areas and making choices.

# Numbering system explained

Numbering system is subject/strand/year group/objective

For example, for M3/4a:

M = music

3 = strand 3 (I can Compose, Invent, Improvise, Understand and Explore)

4 = year 4

a = objective a (Create music in first draft form & later revise, edit & develop it)

<b>Whole School</b>	<b>Topic Expectation</b>	s (Years 1-6)
---------------------	--------------------------	---------------

Year	1	2	3	4	5	6	
Group	up Gatherers		Explo	niners	Evaluators		
Autumn 1 Whole School Topic Environment	bees are impo describe what protect them. Year B Identify some of a polar bear some of the w	of the features rs Recognise ays polar bears' g destroyed and we can do to	Suggest ways in which we can help to reduce rainforest deforestation and explain why this is important for all of us.	<b>Demonstrate</b> an understanding of the impact of reduce, reuse and recycle, and <b>explain</b> the importance of this.	Evaluate the impact of plastic on our environment and make reasoned judgements on its use.	Demonstrate an understanding about how the climate has changed, evaluate the impact of this and reach informed conclusions about the ways that we can help.	
Spring 1 Whole School Topic Health	Compare and contrast Grace Darling's rescue with the modern day Lifeboat service.		Explain and give reasons why the work of Marie Curie has had an impact on our lives today and on the lives of future generations.	Summarise how what we eat today is different to 100 years ago and create arguments for and against whether increased access to a greater range of foods has made our diet healthier or unhealthier.	Empathise with those who lived through The Great Plague and reach informed conclusions on why we have fewer epidemics today.	Identify, describe and sequence the main milestones in the history of medicine in Britain and explain and justify their ordering, reaching a judgement which justifies their opinion about which they feel to have been the most significant.	
Summer 1 Whole School Topic Water	Identify and describe different materials deposited by oceans at Westward Ho! and give reasons for the differences. Explain some of the ways in which they can help to reduce ocean pollution.		Demonstrate an understanding of the journey of a river to the sea, explain how and why humans have settled at different points along its course and the impact this has had on their lives.	Demonstrate an understanding of the ways in which water is consumed every day and suggest ways that we could reduce water consumption both at home and at school.	Critique the role of Drake's Seadogs, evaluating whether his actions were right for the country and hypothesise how England could have been if ruled by the Spanish	Reach conclusions and justify why migrants sailed to a new life overseas and evaluate and critique both their own and others art creations based on 'The Last of England' by Ford Madox Brown.	

	ı					I		
Voor	FSU	1	2	3	4	5	6	
Year	Explorers	Gath	erers	Ехр	plainers	Evaluators		
	Understandin	g of music (1)						
	a) When listening to music identify instruments played, how it makes them feel, what it makes them think. What images arise in their minds.	a) When listening to music identify changes in the music and begin to use the terms pitch and pace to describe the changes.	a) When listening to music identify the impact of some of the elements in carefully selected music by famous composers from the past and present	a) When listening to music begin to make comparisons between music of different cultures through the elements of music	a) When listening to music have a wider range of knowledge & experience of music from various times & cultures	a) Beginning to develop & demonstrate an understanding of the history of music	a) Demonstrate an understanding of the history of music	
		I can Sing, Play	, Perform, Unde	rstand and Explo	re (2)			
Sub ject con tent	a) Sing a range of well-known rhymes and songs. b) Perform songs, rhymes, poems and stories with others and when appropriate, move in time to music.	a) Begin to play patterns from memory  b) Begin to play/copy with some awareness of the beat  c) Experiment with their voice (chant, rap, represent known sounds)	a) Sing with developing sense of pitch, dynamics, duration, when singing songs with an appropriate range b) Recognise the use of hand signals to show pitch (high/low) in the tune c) Know how to make a sound on several un-tuned instruments. d) When pupils are performing together, they are aware they all	a) Begin to follow various notations (symbol/pictorial/ICT) to support the rhythm when performing b) When pupils are performing together, they are aware they all need to play to the same beat & the same speed c) They recognise errors & begin to correct when performing d) Play their own part when performing on tuned instruments with others	a) Sing largely in tune as a whole class & keep a counter melody or harmony as part of a group b) Play in such a way that the whole class are aware of the common beat c) Sing using dynamics to express the mood of the phrase d) Be aware of other players as they perform	a) Play their own part when performing on instruments with others b) Sing in a way that reflects the genre, lyric & mood of the music (eg appropriate dynamics and phrasing). c) Play simple pieces on a keyboard or other tuned instrument (not percussion) which have a simple melody.	a) When working from notations most will be confident in their use of 4 beat (Semi-breve), 2 beat (Minim) & 1 beat (Crotchet) & pairs of half-beat notes (Quavers)  b) Play a counter rhythm in time with the common beat  c) When working with untuned percussions, play straightforward parts in an ensemble with simple note values (semi-breve, minim, crotchet & quaver). Sing songs in a 2-part texture, singing mainly in tune & in time & with some control of vocal techniques (breathing, posture & diction). This may include 2	

		e) Sing in a way that reflects the lyric			
a) Explore sounds on instruments & objects  b) Make changes to sounds (eg. playing with different beaters or using dynamics)  c) Make & repeat short patterns of sound  d) Create short patterns of sound in response to a starting point (eg a story, a picture, a short animated film)	a) Experiment with their voice (chant, rap, represent known sounds) Invent their own pictorial symbols to represent sounds b) Experiment with pitch (high/low), dynamics (loud/quiet), duration (long/short) & timbre (different types of sound) which different instruments make	a) Notate some of their work using graphic scores (sometimes using ICT) b) Use a simple structure which has a beginning, a middle & an end c) Develop musical ideas from given stimuli (eg a photograph, a poem, a story, animation)	a) Create music in first draft form & later revise, edit & develop it  b) When composing, they choose their resources, including instruments, to suit the task  c) Work together to link different instruments in pieces in more than one part (texture)  d) Use dynamics (loud/quiet), pitch (high/low), duration (long/short), tempo (speed) , texture (layers of sound), timbre (quality of sound) & structure (how a piece of music is put together) in a planned way	a) Create own music in first draft form, developing music from techniques studied and later revise, edit & develop it b) When composing, choose resources & instruments to suit the task. c) Work in teams or as a whole class to produce compositions with more than 2 instrumental parts	a) Compose music that shows basic development within a simple structure & that illustrates an intended mood or atmosphere eg AB or AABB showing a contrasting section of about 8 bars length with each section having a unique/difference within the elements  b) When working as part of a group, compose a small ensemble piece which rhythmically & melodically interesting, using basic notation where possible  c) Carry out simple refinements & improvements to their own work, developing main themes with the use of a number of variation techniques to extend their work
I can Listen. An	praise. Evaluate	, Understand and	Explore (4)		WOTK
a) Make a response to different moods in music (eg move in a particular way, or paint when	a) When listening they can identify the impact of some of the elements in carefully selected	a) Make suggestions to improve their own work & act upon this	a) Identify the impact of elements in a variety of music from a range of times & cultures	a) When listening to music which intends to create an effect or atmosphere Identify how & why the elements are used in a	a) Use relevant musical vocabulary (pitch, dynamics, duration, timbre tempo & structure), when talking about the elements of music

		listening to a specific piece of music) b) When changes in musical elements within a piece are very clear (suddenly loud or quiet), recognise & react to the change c) Begin to follow simple musical instructions (eg hand signs for "get louder")	music by famous composers from the past & present b) Make suggestions to improve their work	b) Identify musical features which seem to suggest a mood or atmosphere	b) When listening to music which intends to create an effect or atmosphere, they can identify how the elements are used in a particular way  c) Use relevant musical vocabulary (pitch, dynamics, duration, tempo), when talking about the elements of music	particular way & investigate their impact  b) Evaluate the effectiveness of a piece of music with regard to its intended effect, venue, occasion & purpose, using some appropriate vocabulary	b) Analyse music, including music from around the world, historic music from the great composers, & popular music with some accuracy showing basic skills in identifying changes related to the elements of music; duration, pitch, dynamics, tempo, texture, timbre & structure; including the use of silence
Vocab	beat	Pitch, tempo	All previous plus dynamics	All previous plus ostinato	All previous plus duration structure	All previous plus timbre texture	All previous

# **Expectations of our Year 1 Musicians**

By the end of Year 1 our young musicians are developing into *gatherers* and demonstrate they have begun to use effectively a range of simple musical skills and techniques and simple subject vocabulary to:

- 1. Begin to play/copy with some awareness of the beat
- 2. Make changes to sounds (eg. playing with different beaters or using dynamics)
- 3. When changes in musical elements within a piece are very clear (suddenly loud or quiet), recognise & react to the change
- 4. When listening to music identify changes in the music and begin to use the terms pitch and pace to describe the changes.

## **Expectations of our Year 2 Musicians**

By the end of Year 2 our young musicians will have become secure *gatherers* and demonstrated they can use effectively a range of simple musical skills and techniques including and simple subject vocabulary to:

- 1. When pupils are performing together, they are aware they all need to play 'together'
- 2. Experiment with pitch (high/low), dynamics (loud/quiet), duration (long/short) & timbre (different types of sound) which different instruments make
- 3. When listening they can identify the impact of some of the elements in carefully selected music by famous composers from the past & present

## **Expectations of our Year 3 Musicians**

By the end of Year 3 our young musicians are developing into *explainers* and demonstrated they have begun to effectively use a range of musical skills and techniques and subject vocabulary to:

- 1. When pupils are performing together, they are aware they all need to play to the same beat & the same speed
- 2. Use a simple structure which has a beginning, a middle & an end
- 3. Identify musical features which seem to suggest a mood or atmosphere
- 4. When listening to music, begin to make comparisons between music of different cultures through the elements of music

## **Expectations of our Year 4 Musicians**

By the end of Year 4 our young musicians will have become secure *explainers* and demonstrated they can use effectively a range of musical skills and techniques and subject vocabulary to:

- 1. Sing largely in tune as a whole class & keep a counter melody or harmony as part of a group
- 2. When composing, they choose their resources, including instruments, to suit the task
- 3. When listening to music which intends to create an effect or atmosphere, they can identify how the elements are used in a particular way
- 4. When listening to music, have a wider range of knowledge & experience of music from various times & cultures

# **Expectations of our Year 5 Musicians**

By the end of Year 5 our young musicians are developing into *evaluators* and demonstrated they can use effectively a range of musical skills and techniques and more technical subject vocabulary to:

1. Sing in a way that reflects the genre, lyric & mood of the music

## **Expectations of our Year 6 Musicians**

By the end of Year 6 our young musicians will have become secure *evaluators* and demonstrated they can use effectively a range of musical skills and techniques and more technical subject vocabulary to:

1. Play a counter rhythm in time with the common beat

- 2. Work in teams or as a whole class to produce compositions with more than 2 instrumental parts
- 3. Evaluate the effectiveness of a piece of music with regard to its intended effect, venue, occasion & purpose, using some appropriate vocabulary
- 2. Compose music that shows basic development within a simple structure & that illustrates an intended mood or atmosphere eg AB or AABB showing a contrasting section of about 8 bars length with each section having a unique/difference within the elements
- 3. Analyse music, including music from around the world, historic music from the great composers, & popular music with some accuracy showing basic skills in identifying changes related to the elements of music; duration, pitch, dynamics, tempo, texture, timbre & structure; including the use of silence

# Mathematics (Ma1/1a - Ma31/6a)

	FSU	1	2	3	4	5	6
PV Counting (1)	a) Verbally count beyond 20, recognising the pattern of the counting system	a) Count to & across 100, forwards & backwards, beginning with 0 or 1, or from any given number b) Count numbers to 100 in numerals; count in multiples of 2s, 5s & 10s	a) Count in steps of 2, 3 & 5 from 0, and in 10s from any number, forward & backward	a) Count from 0 in multiples of 4, 8, 50 & 100; find 10 or 100 more or less than a given number	a) Count in multiples of 6, 7, 9, 25 & 1000 b) Count backwards through zero to include negative numbers	a) Count forwards or backwards in steps of powers of 10 for any given number up to 1,000,000 b) Count forwards & backwards with positive & negative whole numbers, including through zero	
PV Represe nt (2)	<ul> <li>a) have a deep understanding of numbers to 10 including the composition of each number.</li> <li>b) Subitise to 5.</li> <li>c) Automaticall y recall number bonds to 5 and some numbers to 10</li> </ul>	a) Identify & represent numbers using objects & pictorial representations b) Read & write numbers to 100 in numerals c) Read & write numbers from 1-20 in numerals & words	a) Read & write numbers to at least 100 in numerals & in words  b) Identify, represent & estimate numbers using different representations including the number line	a) Identify, represent & estimate numbers using different representations b) Read & write numbers up to 1000 in numerals & in words	a) Identify, represent & estimate numbers using different representations b) Read Roman numerals to 100 (I-C) & know that over time the numeral system changed to include the concept of zero & place value	a) Read, write (order & compare)numbers to at least 1,000,000 & determine the value of each digit b) Read Roman numerals to 1000 (M) & recognise years written in Roman numerals	a) Read, write (order & compare) numbers up to 10,000,000 and determine the value of each digit

	including double facts.						
PV Use & Compare (3)	a) Compare quantities up to 10 in different contexts, recognising when one quantity is greater than, less than or the same as the other quantity.	a) Given a number, identify 1 more & 1 less	a) Recognise the place value of each digit in a 2-digit number (10s & 1s) b) Compare & order numbers from 0 up to 100; use <, > & = signs	a) Recognise the place value of each digit in a 3-digit number (100s, 10s & 1s) b) Compare & order numbers up to 1000	a) Find 1000 more or less than a given number b) Recognise the place value of each digit in a 4-digit number (1000s, 100s, 10s 7 1s) c) Order & compare numbers beyond 1000	a) (Read, write) order & compare numbers to at least 1,000,000 & determine the value of each digit	a) (Read, write) order & compare numbers to at least 10,000,000 & determine the value of each digit
PV Problem s & Roundin g (4)			a) Use place value & number facts to solve problems	a) Solve number problems & practical problems involving these ideas	a) Round any number to the nearest 10,100 or 1000 b) Solve number & practical problems that involve all of the above & with increasingly large positive numbers	a) Interpret negative numbers in context b) Round any number up to 1,000,000 to the nearest 10, 100, 1000, 10,000 & 100,000 c) Solve number problems & practical problems that involve all of the above	a) Round any whole number to a required degree of accuracy b) Use negative numbers in context, & calculate intervals across zero c) Solve number & practical problems that involve all of the above
Addition & Subtracti on: Recall, Represe nt, Use (5)	a) Explore and represent patterns within numbers up to 10 including odds and evens, double facts and how quantities can be distributed equally.	a) Read, write & interpret mathematical statements involving addition (+), subtraction (-) & equals (=) signs b) Represent & use number bonds & related subtraction facts within 20	a) Recall & use addition & subtraction facts to 20 fluently & derive & use related facts up to 100 b) Show that addition of two numbers can be done in any order (cumulative) & subtraction of one	a) Estimate the answer to a calculation & use inverse operations to check answers	a) Estimate and use inverse operations to check answers to a calculation	a) Use rounding to check answers to calculations & determine, in the context of a problem, levels of accuracy	

Addition & Subtracti on: Calculati ons (6)	a) Explore and represent patterns within numbers up to 10 including odds and evens, double facts and how quantities can be distributed equally.	a) Add & subtract 1-digit & 2-digit numbers to 20, including zero	number from another can not  c) Recognise & use the inverse relationship between addition and subtraction & use this to check calculations & solve number problems  a) Add & subtract numbers using concrete objects, pictorial representations & mentally, including: -a 2-digit number & 1s -a 2-digit number and 10s -2-digit numbers -adding three 1-digit numbers	a) Add & subtract numbers mentally, including: -a 3-digit number & 1s -a 3-digit number & 10s -a 3-digit number & 100s b) Add & subtract numbers with up to 3-digits, using formal written methods of column addition & subtraction	a) Add & subtract numbers with up to 4 digits using the formal written methods of columnar addition & subtraction where appropriate	a) Add & subtract numbers with more than 4 digits, including using formal written methods (columnar addition & subtraction) b) Add & subtract numbers mentally with increasingly large numbers	a) Perform mental calculation, including with mixed operations & large numbers b) Use their knowledge of the order of operations to carry out calculations involving the four operations
Addition & Subtracti on: Solve Problem s (7)	a) Explore and represent patterns within numbers up to 10 including odds and evens, double facts and how quantities can be distributed equally.	a) Solve 1-step problems that involve addition and subtraction, using concrete objects & pictorial representations, & missing number problems such as 7=□-9	a) Solve problems with addition & subtraction: -using concrete objects & pictorial representations, including those involving numbers, quantities & measures -applying their increasing knowledge of mental & written methods	a) Solve problems, including missing number problems, using number facts, place value & more complex addition & subtraction	a) Solve addition & subtraction 2-step problems in contexts, deciding which operations & methods to use & why	a) Solve addition & subtraction multi-step problems in contexts. Deciding which operations to use & why  b) Solve problems involving addition, subtraction, multiplication & division & a combination of these. Including understanding the	a) Solve addition & subtraction multi-step problems in contexts, deciding which operations & methods to use & why

				meaning of the equals sign	
Multiplic ation & Division: Recall, Represe nt, Use (8)	a) Recall & use multiplication & division facts for the 2, 5&10 multiplication tables, including recognising odd & even numbers  b) Show that multiplication of two numbers can be done in any order (commutative) & division of one number by another cannot	a) Recall and use multiplication & division facts for the 3,4&8 multiplication tables	a) Recall multiplication & division facts for multiplication tables up to 12x12 b) Use place value, known & derived facts to multiply & divide mentally, including: multiplying by 0&1; dividing by1: multiplying together three numbers c) Recognise & use factor pairs & commutativity in metal calculations	a) Identify multiples & factors, including finding all factor pairs of a number & common factors of two numbers  b) Know and use the vocabulary of prime numbers, prime factors & composite (non-prime) numbers  c) Establish whether a number up to 100 is prime & recall prime numbers up to 19  d) Recognise & use square numbers & cube numbers & cube numbers & cube numbers & cube d (3)	a) Identify common factors, common multiples & prime numbers b) Use estimation to check answers to calculations & determine, in the context of a problem, an appropriate degrees of accuracy
Multiplic ation & Division: Calculati ons (9)	a) Calculate mathematical statements for multiplication & division within the multiplication tables & write them using the multiplication (x), division (÷) & equals (=) signs	a) Write & calculate mathematical statements for multiplication & division using the multiplication tables that they know, including for 2-digit numbers times 1-digit numbers, using mental & progressing to formal written methods	a) Multiply 2-digit & 3-digit numbers by a 1-digit number using formal written methods	a) Multiply numbers up to 4-digits by a 1-digit number using formal written method, including long multiplication for 2-digit numbers  b) Multiply & divide numbers mentally drawing upon known facts	a) Multiply multi-digit numbers up to 4 digits by a 2-digit whole number using the formal written method of long multiplication b) Divide numbers up to 4-digits by a 2-digit whole number using the formal written method of long division & interpret

						c) Divide numbers up to 4-digits by a 1-digit number using the formal written method of short division & interpret remainders appropriately for the context  c) Multiply & divide whole numbers & those involving decimals by 10, 100 & 1000	remainders as whole number remainders, fractions, or by rounding, as appropriate to the context  c) Divide numbers up to 4-digits by a 2-digit whole number using the formal written method of short division where appropriate, interpreting remainders according to the context  d) Perform mental calculations, including with mixed operations and large numbers
Multiplic ation & Division: Solve Problem s (10)	a) Explore and represent patterns within numbers up to 10 including odds and evens, double facts and how quantities can be distributed equally.	a) Solve 1-step problems involving multiplication & division by calculating the answer using objects, pictorial representations & arrays with the support of the teacher	a) Solve problems involving multiplication & division using materials, arrays, repeated addition, mental methods & multiplication & division facts, including problems in contexts	a) Solve problems, including missing number problems, involving multiplication & division, including positive integer scaling problems & correspondence problems in which n objects are connected to m objects	a) Solve problems involving multiplying & adding, including using the distributive law to multiply 2-digit numbers by 1-digit, integer scaling problems & harder correspondence problems such as n objects connected to m objects	a) Solve problems involving multiplication & division using their knowledge of factors & multiples, squares & cubes  a) Solve problems involving multiplication & division, including scaling by a simple fractions & problems involving simple rates	a) Solve problems involving addition, subtraction, multiplication & division
Multiplic ation & Division: Combine d						a) Solve problems involving addition, subtraction, multiplication & division & a	a) Use their knowledge of the order of operations to carry out calculations

Operatio ns (11)					combination of these, including understanding the meaning of the equals sign	involving the four operations
Fractions : Recognis e & Write (12)	a) Recognise, find & name half as one of two equal parts of an object, shape or quantity b) Recognise, find & name a quarter as one of four equal parts of an object, quantity or shape	a) Recognise, find, name & write fractions 1/3, 1/4, 2/4 & 3/4 of a length, shape, set of objects or quantity	a) Count up & down in tenths: recognise that tenths arise from dividing an object into ten equal parts and in dividing 1-digit numbers or quantities by 10  b) Recognise, find & write fractions of a discrete set of objects: unit fractions & non-unit fractions with small denominators	a) Count up & down in hundredths: recognise that hundredths arise when dividing an object by one hundred & dividing tenths by ten	a) Identify, name & write fractions of a given fractions, represented visually, including tenths & hundredths b) Recognise mixed numbers & improper fractions & convert from one form to the other & write mathematical statement .1 as a mixed number (eg 2/5+4/5=6/5=1 6/5)	
			c) Recognise & use fractions as numbers: unit fractions & non-unit fractions with small denominators			
Fractions Compare (13)		a) Recognise the equivalence of 2/4 and 1/2	a) Recognise & show, using diagrams, equivalent fractions with small denominators b) Compare & order unit fractions & fractions with the	a) Recognise & show, using diagrams, families of common equivalent fractions	a) Compare & order fractions whose denominators are all multiples of the same number	a) Use common factors to simplify fractions; use common multiples to express fractions in the same denomination b) Compare & order fractions including
Fractions: Calculations (14)		a) Write simple fractions (eg ½ of 6 = 3)	a) Add & subtract fractions with the same denominator within one whole (eg 5/7 + 1/7 = 6/7)	a) Add & subtract fractions with the same denominator	a) Add & subtract fractions with the same denominator and denominators	fractions, including fractions >1 a) Add & subtract fractions with different denominators & mixed numbers, using

				that are multiples of the same number  a) Multiply proper fractions & mixed numbers by whole numbers, supported by materials & diagrams	the concept of equivalent fractions  a) Multiply simple pairs of proper fraction, writing the answer in its simplest form (eg 1/4 x 1/2 =1/8)  a) Divide proper fractions by whole numbers (eg 1/3 ÷2 = 1/6)
Fractions : Solve Problem s (15)		a) Solve problems that involve all of the above	a) Solve problems involving increasingly harder fractions to calculate quantities, & fractions to divide quantities, including non-unit fractions where the answer is a whole number		
Decimals : Recognis e & Write (16)			a) Recognise & write decimal equivalents of any number of tenths or hundredths b) Recognise & write decimal equivalents to 1/4, 1/2, 3/4	a) Read & write decimal numbers as fractions (eg 0.71 = 71/100)  b) Recognise & use thousandths & relate them to tenths, hundredths and decimal equivalents	a) Identify the value of each digit in numbers given to three decimal places
Decimals : Compare (17)			a) Round decimals with one decimal place to the nearest whole number  b) Compare numbers with the same number of decimal places up to two decimal places	a) Round decimals with two decimal places to the nearest whole number and to one decimal place b) Read, write, order & compare numbers with up to three decimal places	

Decimals : Calculati ons & Problem s (18)			a) Find the effect of dividing a 1- or 2-digit number by 10 & 100, identifying the value of the digits in the answer as ones, tenths & hundredths	a) Solve problems involving number up to three decimal places	a) Multiply & divide numbers by 10, 100 & 1000 giving answers up to three decimal places b) Multiply 1-dgit numbers with up to tow decimal places by whole numbers c) Use written division methods in cases where the answer has up to two decimal places d) Solve problems which require answers to be rounded to specified degrees of accuracy
Fractions , Decimals & Percenta ges (19)			a) Solve simple measures & money problems involving fractions & decimals to two decimal places	a) Recognise the per cent symbol (%) & understand that per cent relates to 'number of parts per hundred' & write percentages as a fraction with denominator 100 & as a decimal  b) Solve problems which require knowing percentage & decimal equivalents of ½, ¼, 1/5, 2/5, 4/5 & those fractions with a denominator of a multiple of 10 or 25	a) Associate a fraction with division & calculate decimal equivalent fractions (eg 0.375) for a simple fraction (eg 3/8) b) Recall & use equivalences between simple fractions, decimals & percentages, including different contexts

a) Solve problems involving the relative sizes of two quantities where missing values can be found by using integer multiplication & division facts  b) Solve problems involving the calculation of percentages (eg of measures & such as 15% 07 360) & the use of percentages (eg of measures & such as 15% 07 360) & the use of percentages for comparison  c) Solve problems involving similar shapes where the scale factor Is known or can be found  d) Solve problems involving unequal sharing & grouping using knowledge of functions & multiples along the inverse relationship between addition & subtraction & use this to check calculations & solve missing number problems  a) Use simple formulae  c) Solve problems including missing formulae  c) Solve problems  c) Solve problems  c) Solve problems  including missing formulae  c) Solve problems  c) Solve problems  c) Solve problems  c) Express missing number problems						
sizes of two quantities where missing values can be found by using integer multiplication & division facts  b) Solve problems involving the calculation of percentages (eg of measures & such as 15% 0f 360) & the use of percentages for comparison  c) Solve problems involving similar shapes where the scale factor Is known or can be found  d) Solve problems involving unequal sharing & grouping using knowledge of functions & multiples  b) Recognise & use the inverse relationship between addition & use this to check calculations & solve missing number problems  sizes of two quantities where missing values can be found a division facts  c) Solve problems  c) Express missing number problems						
where missing values can be found by using integer multiplication & division facts  b) Solve problems involving the calculation of percentages (eg of measures & such as 15% 0f 360) & the use of percentages for comparison  c) Solve problems involving similar shapes where the scale factor Is known or can be found  d) Solve problems involving unequal sharing & grouping using knowledge of functions & multiples along the inverse relationship between addition & use this to check calculations & solve missing number problems  c) Solve problems  c) Use simple formulae  describe linear number sequences  describe linear number sequences  c) Express missing number problems						involving the relative

						and equation with two unknowns  e) Enumerate possibilities of combinations of two variables
Measure ment: Using Measure s (22)	a) Compare, describe & solve practical problems for: -lengths & heights (eg long(er)/short(er), double/half -mass/weight (eg heavy/light, heavier than/lighter than) -capacity & volume (eg full/empty, more than/less than, half/quarter full) -time (eg quicker / slower, earlier/later)  b) Measure & begin to record the following: -lengths & heights -mass/weight -capacity & volume -time (hours, minutes, seconds)	a) Choose & use appropriate standard units to estimate & measure length /height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (l/ml)to the nearest appropriate unit , using rulers, scales, thermometers & measuring vessels b) Compare & order lengths, mass, volume /capacity & record the results using >, < & =	a) Measure, compare, add & subtract length (m/cm/mm), mass (kg/g), volume /capacity (I/mI)	a) Convert between different units of measure (eg km to m, hr to mins) b) Estimate, compare and calculate different measures	a) Convert between different units of metric measure (eg km & m, m & cm, cm & mm, g & kg, I & mI) b) Understand & use appropriate equivalences between metric units & common imperial units such as inches, pounds & pints c) Use all four operations to solve problems involving measure (eg length, mass, volume, money) using decimal notation, including scaling	a) Solve problems involving the calculation & conversion of units of measure using decimal notation up to 3 decimal places where appropriate  b) Use, read, write & convert between standard units, converting measurements of length, mass, volume & time from a smaller unit of measure to a larger unit, & vice versa, using decimal notation to up to 3 decimal places  c) Convert between miles & km
Measure ment: Money (23)	a) Recognise & know the value of different denominations of coins & notes	a) Recognise & use symbols for pounds (£), pence (p); combine amounts to make a particular value b) Find different combinations of coins that equal the same amounts of money	a) Add & subtract amounts of money to give change, using both £ & p in practical contexts	a) Estimate, compare & calculate different measures, including money in pounds & pence	a) Use all four operations to solve problems (eg money)	

Measure ment: Time (24)	a) Sequence events in chronological order using language (eg before, after, next, first, today, yesterday, tomorrow, morning, afternoon & evening) b) Recognise & use language relating to dates, including days of the week, weeks, months & years c) Tell the time to the hour & half past the hour & draw the hands on a clock face & show these times	c) Solve simple problems in a practical context involving addition & subtraction of money of the same unit, including giving change  a) Compare & sequence intervals of time  b) Tell & write the time to 5 minutes, including quarter past/to the hour & draw hands on a clock face to show these times  c) Know the number of minutes in an hour & the number of hours in a day	a) Tell & write the time from an analogue clock, including using Roman numerals from I to XII, & 12 hr & 24hr clocks b) Estimate & read time with increasing accuracy to the nearest minute; record & compare time in terms of seconds, minutes & hours: use vocabulary such as o'clock, am/pm, morning, noon & midnight c) Know the number of seconds in a minute & the number of days in each month, year & leap year Compare durations of	a) Read, write & convert time between analogue & digital 12 & 24 hour clocks b) Solve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days	a) Solve problems involving converting between units of time	a) Use, read, write & convert between standard units converting measurements of time from a smaller unit of measure to a larger unit & vice versa
			•			

Measure ment: Perimete r, Area, Volume (25)			a) Measure the perimeter of simple 2-D shapes	a) Measure & calculate the perimeter of a rectilinear figure (including squares) in cm & m b) Find the area of rectilinear shapes by counting squares	a) Measure & calculate the perimeter of composite rectilinear shapes in cm & m  b) Calculate & compare the area of rectangles (including squares) & including using standard units, square cm (cm²) & square meters (m²) & estimate the area of irregular shapes  c) Estimate the volume (eg using 1cm³ blocks to build cuboids (including cubes)) & capacity (eg using water)	a) Recognise that shapes with the same areas can have different perimeters & vice versa  b) Recognise when it is possible to use formulae for area & volume of shapes  c) Calculate the area of parallelograms & triangles  d) Calculate, estimate & compare the volume of cubes & cuboids using standard units, including cubic cm (cm³) & cubic meters (m³) & extending to other units (eg mm³ & km³)
Geometr y 2-D Shapes (26)	a) Recognise & name common 2-D shapes (eg rectangles (including squares), circles & triangles)	a) Identify & describe the properties of 2-D shapes, including the number of sides & line symmetry in a vertical line b) Identify 2-D shapes on the surface of 3-D shapes (eg a circle on a cylinder & a triangle on a pyramid) c) Compare & sort common 2-D shapes & everyday objects	a) Draw 2-D shapes	a) Compare & classify geometric shapes, including quadrilaterals & triangles, based on their properties & sizes b) Identify lines of symmetry in 2-D shapes presented in different orientations	a) Distinguish between regular & irregular polygons based on reasoning about equal sides & angles b) Use the properties of rectangle sto deduce related facts & find missing lengths & angles	a) Draw 2-D shapes using given dimensions & angles b) Compare & classify geometric shapes based on their properties & sizes c) Illustrate & name parts of circles, including radius, diameter & circumference & know that the diameter is twice the radius

Geometr y 3-D Shapes (27)	a) Recognise & name common 3-D shapes (eg cuboids (including cubes), pyramids & spheres)	a) Recognise & name common 3-D shapes (eg cuboids (including cubes), pyramids & spheres) b) Compare & sort common 3-D shapes & everyday objects	a) Make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations & describe them		a) Identify 3-D shapes, including cubes & other cuboids, from 2-D representations	a) Recognise, describe & build simple 3-D shapes, including making nets
Geometr y: Angles & Lines (28)			a) Recognise angles as a property of shape or description of a turn b) Identify right angles, recognise that two right angles make a ½ turn, three make ¾ of a turn & four a complete turn; identify whether angles are greater than or less than a right angle c) Identify horizontal & vertical lines & pairs of perpendicular & parallel lines	a) Identify acute & obtuse angles & compare & order angles up to two right angles by size b) Identify lines of symmetry in 2-D shapes presented in different orientations c) Complete a simple symmetric figure with respect to a specific line of symmetry	a) Know angles are measured in degrees; estimate& compare acute, obtuse & reflex angles b) Draw given angles & measure them in degrees c) Identify: -angles at a point & one whole turn (total 360°) -angles at a point on a straight line & ½ a turn (total 180°) -other multipes of 90°	a) Find unknown angles in any triangles, quadrilaterals & regular polygons b) Recognise angles where they meet at a point, are on a line, or are vertically opposite, & find missing angles
Geometr y: Position & Direction (29)	a) Describe position, direction & movement, including whole, half, quarter & three quarter turns	a) Order & arrange combinations of mathematical objects in patterns & sequences b) Use mathematical vocabulary to describe position, direction & movement in a straight lie & distinguishing between rotation as a turn & in terms of		a) Describe positions on a 2-D grid as coordinates in the first quadrant  a) Describe movements between positions as translations of a given unit to the left/right and up/down  a) Plot specified points and draw sides	a) Identify, describe & represent the position of a shape following a reflection or translations, suing the appropriate language, & know that the shape has not changed	a) Describe positions on the full coordinate grid (all four quadrants) b) Draw & translate simple shapes on the coordinate plane, & reflect them in the axes

# **Maths Calculation Progression**

## Addition

**Key Language**: sum, total, parts and wholes, plus, add, altogether, more, 'is equal to', 'is the same as'

<b>key Language</b> : sum, total, parts and wholes, plus, add, altogether, i	I	
Concrete	Pictorial	Abstract
Combining two parts to make a whole (use other resources too e.g. eggs, shells, teddy bears, cars, sticky notes).	Children to represent the cubes using dots or crosses. They could put each part on a part whole model too.	# du³ is ā part, 3 is a part and the whole is seven.
		4 3
Counting on using number lines using cubes or Numicon.	Abar model which encourages the children to count on, rather than count all.	Theabstractnumber line: What is 2 more than 4? What is the sum of 2 and 4? What is the total of 4 and 2? 4 + 2
4 5 6	?	4 5 6

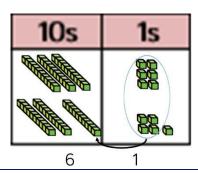

Children to represent the base 10 in a place value chart

5

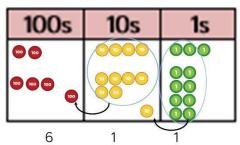

105

111

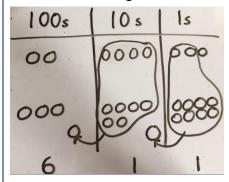

Looking for ways to make 10

Use of place value counters to add HTO + TO, HTO + HTO etc. When there are 10 ones in the 1s column-we exchange for 1 ten, when there are 10 tens in the 10s column- we exchange for 1 hundred.

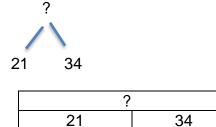

Chidren to represent the counters in a place value chart, circling when they make an exchange.

243

### Conceptual variation: different ways to ask children to solve 21 + 31

Wyedry, there are 21 children and in year 4, there are 34 children.

$$21 + 34 = 55$$
 Prove it

How many children in total?

21	
<u>+34</u>	21+34= ? ? =
	21+34

Calc	ula	ate	the
sum	of	21	and
34			

10s	1s
10 10	0
00 00 00	?
?	5 -

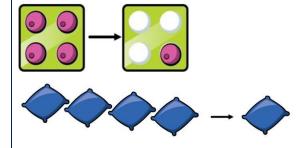

#### **Subtraction**

**Key Language**: take away, less than, the difference, subtract, minus, fewer, decrease

Physically taking away and removing objects from a
whole (ten frames, Numicon, cubes and other items
such as beanbags could be used).

$$4 - 3 = 1$$

Concrete

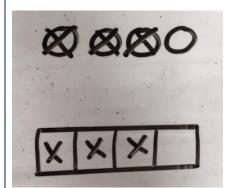

**Counting back** (using number lines or number tracks with or without Numicon alongside) children start with 6 and count back 2.

$$6 - 2 = 4$$

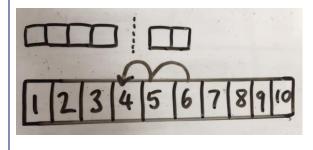

Children to draw the concrete resources they are using and cross out the correct amount. The bar model can also be used.

**Pictorial** 

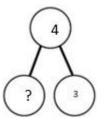

Children to represent what they see pictorially, eg

Abstract

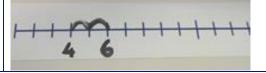

$$4 - 3 = ?$$
  
? =  $4 - 3$ 

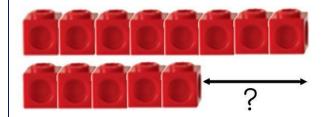

Children to represent the calculation on a number line or number track and show their jumps. Encourage children to use an empty number line

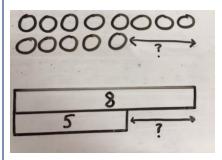

**Finding the difference** (using cubes, Numicon or Cuisenaire rods, other objects can also be used).

Calculate the difference between 8 and 5.

Children to draw the cubes/other concrete objects which they have used or use the barmodel to illustrate what they need to calculate.

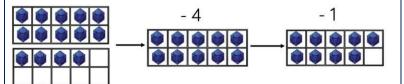

Find the difference between 8 and 5.

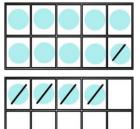

8-5, the difference is ?

Children to explore why 9-6=8-5=7-4 have the same difference

**Making 10** using ten frames. 14 – 5

Children to present the ten frame pictorially and discuss what they did to make 10.

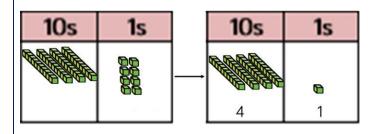

Children to show how they can make 10 by partitioning the subtrahend.

$$\begin{vmatrix} 14 - 5 = 9 \\ 4 & 1 \\ 14 - 4 - 10 \end{vmatrix}$$

$$14 = 4 = 10$$
  
 $10 - 1 = 9$ 

Column method using base

48-7

10s	1s
-1111	1223
4	1

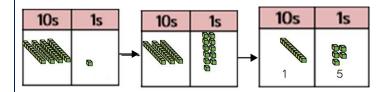

Children to represent the base Children ied represent the base 10 pictorially

Column method or children could count back 7.

	4	8
-		7
	4	Π

# **Column method** using base 10 and having to exchange.

41 - 26

Represent the base 10 pictorially, remembering to show the exchange.

Formal column method. Children must understand that when they have exchanged the 10 they still have 41 because 41 = 30 + 11.

	3/4	1
_	2	6
	1	5

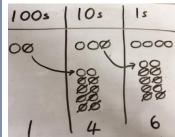

# **Column method** using place value counters. 234 – 88

100s	10s	1s
**	***	****

100s	10s	1s
*	****	****
	****	****
	****	****
		**

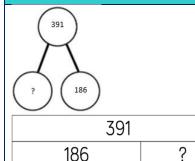

100s	10s	1s	4
*	****	****	
		**	

Represent the place value counters pictorially; remembering to show what has been exchanged.

Formal column method. Children must understand what has happened when they have crossed out digits.

## Conceptual variation: different ways to ask children to solve 391 - 186

Raj spent £391, Timmy spent £186. How much more did Raj spend?

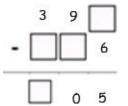

Calculate the difference between 391 and 186

? = 39<del>1</del> 3986 186 391

<u>-186</u>

What is 186 less than 391?

# Missing digit ealeulations

# Multiplication

**Key Language**: doubled, times, multiplied by, the product of, groups of, lots of, equal groups

Rey Language. doubled, times, multiplied by, the product	oi, groups oi, lots oi, equal groups	
Concrete	Pictorial	Abstract
Repeated grouping/repeated addition 3 x 4 4 + 5 + 4 There are 3 equal groups, 4 within each group	Children to represent the practical resources in a picture and use a bar model.	3 × 4 = 12 4 + 4 + 4 = 12
Number lines to show repeated groups 3 x 4  Cuisenaire rods can be used too.	Represent this pictorially alongside a number line	Abstract number line showing three jumps of four  3 x 4 = 12

### Use arrays to illustrate commutativity counters and other objects can also be used.

Children to represent the arrays pictorially.

Children to be able to use an array to write a range of calculations.

$$2 \times 5 = 5 \times 2$$

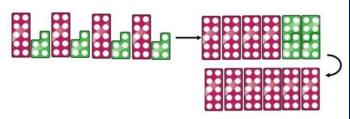

$$\begin{array}{c}
10 = 2 \times 5 \\
5 \times 2 = 10 \\
2 + 2 + 2 +
\end{array}$$

 $5 \times 2 = 10$ 2 + 2 + 2 + 2 + 2 = 10

5 lots of 2

Partition to multiply using Numicon, base 10 or Cuisenaire rods.

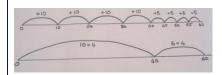

Children to represent the concrete manipulatives pictorially.

Children to be encouraged to show the steps they have taken.

10 x 4 = 40 5 x 4 = 20 40 + 20 = 60

A number line can be used

Formal column method with place value counters (base 10 can also be used.)  $3 \times 23$ 

10s	1s
0 0	000
6	9

Children to represent the counters pictorially.

10s	Is
00	000
00	000
00	000

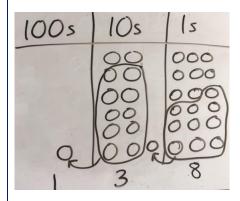

Children to record what it is they are doing to show understanding

$$3 \times 23$$
  $3 \times 20 = 60$   $23$   $3 \times 3 = 9$   $60 + 9 = 69$   $\times 3$   $69$ 

Formal column method with place value counters 6 x 23

100s 10s 1s

Children to represent the counters/base 10, pictorially e.g. the image below.

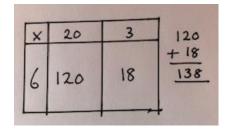

Formal written method

$$6 \times 23 =$$

23

**Grid method** to show how multiplication can be partitioned

When children start to multiply  $3d \times 3d$  and  $4d \times 2d$  etc., they should be confident with the abstract:

To get 744 children have solved  $6 \times 124$ . To get 2480 they have solved  $20 \times 124$ .

	1	2	4	
×		2	6	
	-, <b>7</b>	4	4	
2	-4	8	0	
3	2	2	4	
1	1			
Α	nsv	ver:	3224	

## Conceptual variation: different ways to ask children to solve 6 x 23

23 23 23 23 23 23

Mai had to swim 23 lengths, 6 times a week.

How many lengths did she swim in one week?

With the counters, prove that 6 x 23 = 138

Find the product of 6 and 23  $6 \times 23 = ?$ 

$$? = 6 \times 23$$

What is the calculation? What is the product?

100s	10s	1s
	000000	000

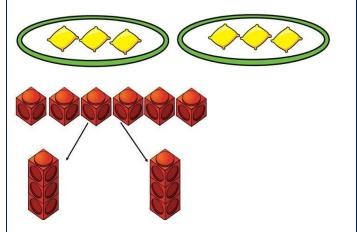

### **Division**

Concrete

Key Language: share, group, divide, divided by, half

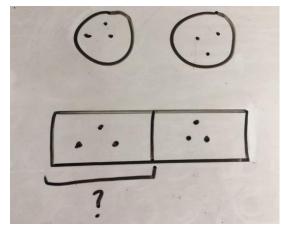

**Sharing** using a range of objects.

6 ÷ 2

Represent the sharing pictorially.

**Pictorial** 

 $6 \div 2 = 3$ 

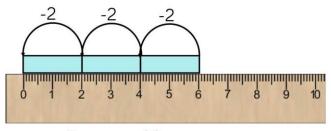

**Abstract** 

3 3

Children should also be encouraged to use their 2 times tables facts

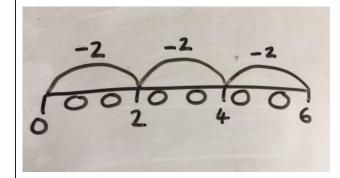

**Repeated subtraction** using Cuisenaire rods above a ruler.

6 ÷ 2

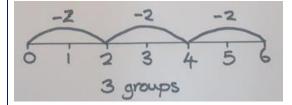

3 groups of 2

Children to represent repeated subtraction pictorially.

Abstract number line to represent the equal groups that have been subtracted.

2d ÷ 1d with remainders using lollipop sticks. Cuisenaire rods, above a ruler can also be used.

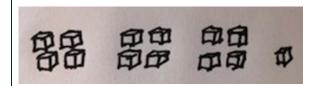

13 ÷ 4

Use of lollipop sticks to form wholes- squares are made because we are dividing by 4.

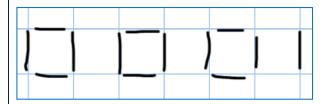

There are 3 whole squares, with 1 left over.

Base 10 may also be used

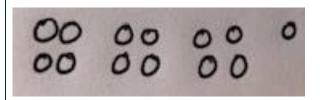

Children to represent the lollipop sticks pictorially.

There are 3 whole squares, with 1 left over.

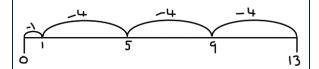

Children represent the base 10 pictorially

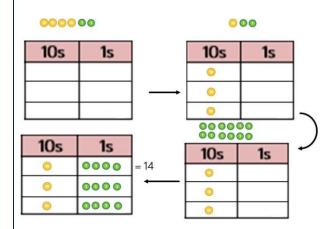

13 ÷ 4 − 3 remainder 1

Children should be encouraged to use their times table facts; they could also represent repeated addition on a number line.

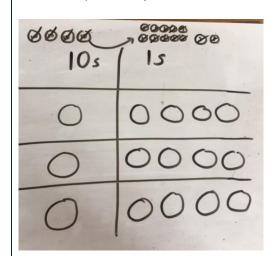

'3 groups of 4, with 1 left over'

Sharing using place value counters.  $42 \div 3 = 14$ 

Children to represent the place value counters pictorially.

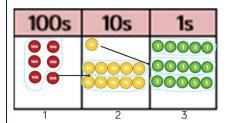

Children to be able to make sense of the

place value counters and write calculations to show the process.

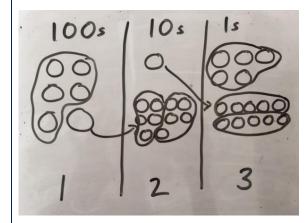

$$42 \div 3$$
  
 $42 = 30 + 12$   
 $30 \div 3 = 10$   
 $12 \div 3 = 4$   
 $10 + 4 = 14$ 

**Short division** using place value counters to group. 615 ÷ 5

- 1.Make 615 with place value counters.
- 2. How many groups of 5 hundreds can you make with 6 hundred counters?
- 3.Exchange 1 hundred for 10 tens.
- 4. How many groups of 5 tens can you make with 11 ten counters?
- 5.Exchange 1 ten for 10 ones.
- 6. How many groups of 5 ones can you make with 15 ones?

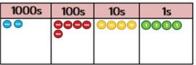

Represent the place value counters pictorially.

Children to the calculation using the short division scaffold.

123 5 615

**Long division** using place value counters 2544 ÷ 12

We can't group 2 thousands into groups of 12 so will exchange them.

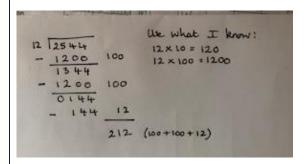

1000s	100s	10s	1s
		0000	0000

After exchanging the hundred, we have 14 tens. We can group 12 tens into a group of 12, which leaves 2 tens.

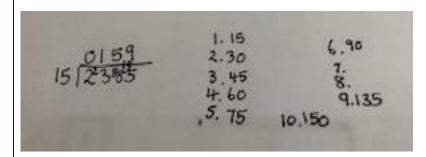

1s	10s	100s	1000s
0000	0000	0000	
8888		9999	

After exchanging the 2 tens, we 12 2544 have 24 ones. We can group 24 ones 12 24 into 2 group of 12, which leaves no remainder. 24 24 24 24 0 0

## Chunking

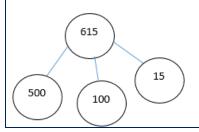

Create a tally/chart of tables you don't know. Work with 1 to 5 and 10 then complete others as needed

Encourage children to notice patterns to speed up the process and avoid unnecessary calculating: 2x, 3x, 4x (double 2x) 5x (2x + 3x) 6x (double 3x) 10x easy -9x (1x less than 10x) 8x (double 4x) 7x (3x + 4x)

### Conceptual variation: different ways to ask children to solve 615 ÷ 5

Using the part whole model below, how can you divide 615 by 5 without using short division?

I have £615 and share it equally between 5 bank accounts. How much will be in each account?

615 pupils need to be put into 5 groups. How many will be in each group?

5 615

 $615 \div 5 = ?$ 

 $? = 615 \div 5$ 

What is the calculation? What is the answer?

100s	10s	1s
000	00000	00000 00000

Writing							
FSU	1	2	3	4	5	6	
F30	Planning, writing and editing						
	To say aloud what they are going to write about. To compose a sentence orally before writing it. To sequence sentences to form short narratives. To discuss what they have written with the teacher or other pupils. To reread their writing to check that it makes sense and to independently	To write narratives about personal experiences and those of others (real and fictional). To write about real events.  To write simple poetry.  To plan what they are going to write about, including writing down ideas and/or key words and new vocabulary To encapsulate what	To begin to use ideas from their own reading and modelled examples to plan their writing.  To proofread their own and others' work to check for errors (with increasing accuracy) and to make improvements.  To begin to organise their writing into paragraphs around a theme.  To compose and rehearse sentences orally (including dialogue).	To compose and rehearse sentences orally (including dialogue), progressively building a varied and rich vocabulary and an increasing range of sentence structures. To consistently organise their writing into paragraphs around a theme to add cohesion and to aid the reader.	To plan their writing by identifying the audience for and purpose of the writing, selecting the appropriate form and using other similar writing as models for their own.  To consider, when planning narratives, how authors have developed characters and settings in what pupils have read, listened to or seen	To note down and develop initial ideas, drawing on reading and research where necessary.  To use further organisational and presentational devices to structure text and to guide the reader (e.g. headings, bullet points, underlining).  To use a wide range of devices to build cohesion within and across paragraphs.  To habitually proofread for spelling and punctuation errors.  To propose changes to	
	begin to make changes. To read their writing aloud clearly enough to be heard by their peers and the teacher.  To use adjectives to describe.	they want to say, sentence by sentence. To make simple additions, revisions and corrections to their own writing by evaluating their writing with the teacher and other pupils. To reread to check that their writing makes sense and		To proofread consistently and amend their own and others' writing, correcting errors in grammar, punctuation and spelling and adding nouns/ pronouns for cohesion.	performed. To proofread work to précis longer passages by removing unnecessary repetition or irrelevant details. To consistently link ideas across paragraphs. To proofread their work to assess the effectiveness of their	vocabulary, grammar and punctuation to enhance effects and clarify meaning.  To recognise how words are related by meaning as synonyms and antonyms and to use this knowledge to make improvements to their writing.	

Awareness of audio	that the correct tense is used throughout. To proofread to check for errors in spelling, grammar and punctuation (e.g. to check that the ends of sentences are punctuated correctly).	cture		own and others' writing and to make necessary corrections and improvements.	
To use a number of simple features of different text types and to make relevant choices about subject matter and appropriate vocabulary choices.  To start to engage readers by using adjectives to describe	To write for different purposes with an awareness of an increased amount of fiction and nonfiction structures.  To use new vocabulary from their reading, their discussions about it (one- to-one and as a whole class) and from their wider experiences.  To read aloud what they have written with appropriate intonation to make the meaning clear.	To demonstrate an increasing understanding of purpose and audience by discussing writing similar to that which they are planning to write in order to understand and learn from its structure, vocabulary and grammar. To begin to use the structure of a wider range of text types (including the use of simple layout devices in non-fiction). To make deliberate ambitious word choices to add detail.  To begin to create settings, characters and plot in narratives.	To write a range of narratives and nonfiction pieces using a consistent and appropriate structure (including genre-specific layout devices).  To write a range of narratives that are well-structured and well-paced.  To create detailed settings, characters and plot in narratives to engage the reader and to add atmosphere.  To begin to read aloud their own writing, to a group or the whole class, using appropriate intonation and to control the tone and	To consistently produce sustained and accurate writing from different narrative and nonfiction genres with appropriate structure, organisation and layout devices for a range of audiences and purposes.  To describe settings, characters and atmosphere with carefully- chosen vocabulary to enhance mood, clarify meaning and create pace.  To regularly use dialogue to convey a character and to advance the action.  To perform their own compositions	To write effectively for a range of purposes and audiences, selecting the appropriate form and drawing independently on what they have read as models for their own writing (including literary language, characterisation, structure, etc.).  To distinguish between the language of speech and writing and to choose the appropriate level of formality.  To select vocabulary and grammatical structures that reflect what the writing requires (e.g. using contracted forms in dialogues in narrative; using passive verbs to affect how information is presented; using modal

			volume so that the meaning is clear.	confidently using appropriate intonation, volume and movement so that meaning is clear.	verbs to suggest degrees of possibility).
Sentence construct	ion, tenses, phrases an	d clauses			
To use simple sentence structures To use the joining word (conjunction) 'and' to link ideas and sentences. To begin to form simple compound sentences.	To use the present tense and the past tense mostly correctly and consistently. To form sentences with different forms: statement, question, exclamation, command. To use some features of written Standard English. To using coordination (or/and/but). To use some subordination (when/if/that/because). To use expanded noun phrases to describe and specify (e.g. the blue butterfly).	To try to maintain the correct tense (including the present perfect tense) throughout a piece of writing with accurate subject/verb agreement. To use 'a' or 'an' correctly throughout a piece of writing.  To use subordinate clauses, extending the range of sentences with more than one clause by using a wider range of conjunctions, including when, if, because, and although.  To use a range of conjunctions, adverbs and prepositions to show time, place and cause.	To always maintain an accurate tense throughout a piece of writing. To always use Standard English verb inflections accurately, e.g. 'we were' rather than 'we was' and 'I did' rather than 'I done'. To use subordinate clauses, extending the range of sentences with more than one clause by using a wider range of conjunctions, which are sometimes in varied positions within sentences. To expand noun phrases with the addition of ambitious modifying adjectives and prepositional phrases, e.g. the heroic soldier with an unbreakable spirit.	To use a range of adverbs and modal verbs to indicate degrees of possibility, e.g. surely, perhaps, should, might, etc. To ensure the consistent and correct use of tense throughout all pieces of writing. To use a wide range of linking words/phrases between sentences and paragraphs to build cohesion, including time adverbials (e.g. later), place adverbials (e.g. nearby) and number (e.g. secondly). To use relative clauses beginning with a relative pronoun with confidence (who, which, where, when, whose, that and	To ensure the consistent and correct use of tense throughout all pieces of writing, including the correct subject and verb agreement when using singular and plural.  To use the subjunctive form in formal writing. To use the perfect form of verbs to mark relationships of time and cause. To use the passive voice. To use question tags in informal writing.

			To consistently choose nouns or pronouns appropriately to aid cohesion and avoid repetition, e.g. he, she, they, it.	omitted relative pronouns), e.g. Professor Scriffle, who was a famous inventor, had made a new discovery.	
Punctuation	1				
To use capit letters for n places, the confidence of the week the personal pronoun 'l'. To use finge spaces.  To use full so to end sente To begin to question mand and exclamate marks.	of punctuation taught at key stage 1 mostly correctly including:	To use the full range of punctuation from previous year groups.  To punctuate direct speech accurately, including the use of inverted commas.	To use all of the necessary punctuation in direct speech, including a comma after the reporting clause and all end punctuation within the inverted commas.  To consistently use apostrophes for singular and plural possession.	To use commas consistently to clarify meaning or to avoid ambiguity.  To use brackets, dashes or commas to indicate parenthesis.	To use the full range of punctuation taught at key stage 2 correctly, including consistent and accurate use of semi- colons, dashes, colons, hyphens, and, when necessary, to use such punctuation precisely to enhance meaning and avoid ambiguity.
Use of term	inology				
To recognise use the tern letter, capital letter, word singular, plusentence, punctuation stop, questimark and exclamation mark.	the terms noun, noun phrase, statement, question, exclamation, command, full compound, suffix, adjective, adverb, verb, present tense,	To recognise and use the terms preposition, conjunction, word family, prefix, clause, subordinate clause, direct speech, consonant, consonant letter, vowel, vowel letter and inverted commas (or speech marks).	To recognise and use the terms determiner, pronoun, possessive pronoun and adverbial.	To recognise and use the terms modal verb, relative pronoun, relative clause, parenthesis, bracket, dash, cohesion and ambiguity.	To recognise and use the terms subject, object, active, passive, synonym, antonym, ellipsis, hyphen, colon, semi-colon and bullet points.

FSU	1	2	3	4	5	6
	Phonics and decod	ing				
	To apply phonic knowledge and skills as the route to decode words.  To blend sounds in unfamiliar words using the GPCs that they have been taught. To respond speedily, giving the correct sound to graphemes for all of the 40+ phonemes. To read words containing taught GPCs. To read words containing -s, -es, -ing, -ed and -est endings.  To read words with contractions, e.g. I'm, I'll and we'll.	To continue to apply phonic knowledge and skills as the route to decode words until automatic decoding has become embedded and reading is fluent.  To read accurately by blending the sounds in words that contain the graphemes taught so far, especially recognising alternative sounds for graphemes.  To accurately read most words of two or more syllables. To read most words containing common suffixes	To use their phonic knowledge to decode quickly and accurately (may still need support to read longer unknown words).  To apply their growing knowledge of root words and prefixes, including in, im-, il-, ir-, dis-, mis-, un-, re-, sub-, inter-, super-, anti- and auto- to begin to read aloud.  To apply their growing knowledge of root words and suffixes/word endings, including -ation, -ly, -ous, -ture, -sure, -sion, -tion, -ssion and -cian, to begin to read aloud.	To read most words fluently and attempt to decode any unfamiliar words with increasing speed and skill.  To apply their knowledge of root words, prefixes and suffixes/word endings to read aloud fluently	To read most words fluently and attempt to decode any unfamiliar words with increasing speed and skill, recognising their meaning through contextual cues.  To apply their growing knowledge of root words, prefixes and suffixes/ word endings, including -sion, -tion, -cial, -tial, -ant/-ance/-ancy, -ent/-ence/-ency, -able/-ably and -ible/ibly, to read aloud fluently.	To read fluently with full knowledge of all Y5/ Y6 exception words, root words, prefixes, suffixes/word endings and to decode any unfamiliar words with increasing speed and skill, recognising their meaning through contextual cues

#### **Expectations of our Year 1 Digital Linguists**

By the end of Year 1 our young digital linguists are developing into *gatherers* by **recognising** aspects of computational thinking that they have used to solve problems. They can **recall** how to use computer science in creative ways, using subject specific vocabulary. They are becoming digitally literate by:

- 1. Experiencing digital algorithms in action.
- 2. Identifying how data can be displayed digitally.
- 3. Exploring ways to be creative with a range of technology tools.
- 4. **Recognising** technology in everyday life.

### **Expectations of our Year 3 Digital Linguists**

By the end of Year 3 our young digital linguists are developing into *explainers* by **explaining** how they have used aspects of computational thinking to solve problems. They can **demonstrate** how to use computer science in creative ways, using subject specific vocabulary. They are becoming digitally literate by:

- 1. Constructing and testing digital algorithms.
- 2. Creating digital databases using data collected from different sources.
- 3. Choosing technological tools for a specific purpose.
- 4. Using technology in everyday life.

#### **Expectations of our Year 5 Digital Linguists**

By the end of Year 5 our young digital linguists are developing as *evaluators* by **evaluating** how they have used computational thinking to solve problems. They can **reach informed judgements** as to why they have used computer science in creative ways, using subject specific vocabulary. They are becoming digitally literate by:

- 1. Constructing and decomposing more complex algorithms containing variables.
- 2. Independently selecting from a range of tools and apps to collect and present data digitally.
- 3. Editing work by combining a range of technological tools.
- 4. **Evaluating** information gathered from technology in everyday life.

### **Expectations of our Year 2 Digital Linguists**

By the end of Year 2 our young digital linguist are secure *gatherers* by **selecting** aspects of computational thinking to solve problems. They can **describe** how to use computer science in creative ways, using subject specific vocabulary. They are becoming digitally literate by:

- 1. Using and **sequencing** digital algorithms.
- 2. **Describing** how data can be collected displayed digitally.
- 3. **Describing** technological tools to communicate.
- 4. **Describing** how technology is used in everyday life.

#### **Expectations of our Year 4 Digital Linguists**

By the end of Year 4 our young digital linguists are secure *explainers* by **summarising** how they have used computational thinking to solve problems. They can **reason** why they have used computer science in creative ways, using subject specific vocabulary. They are becoming digitally literate by:

- 1. Recognising problems in digital algorithms and offering debugging suggestions.
- 2. Scrutinising the data that has been collected and presented digitally.
- 3. Making informed choices regarding audience when selecting from a range of technological tools.
- 4. **Explaining** the reliability and limitations of technology in everyday life.

### **Expectations of our Year 6 Digital Linguists**

By the end of Year 6 our young digital linguists are secure *evaluators* by **justifying** how they have used computational thinking to solve problems. They can **critique** the ways in which they have used computer science to be creative, using subject specific vocabulary. They have become digitally literate by:

- 1. **Evaluating** complex digital algorithms with a range of variables.
- 2. Independently interrogating data that they have collected and presented digitally using a range of sources.
- 3. Independently seeking out new technological tools for specific purposes.
- 4. **Evaluating** the reliability of information gathered from a range of technology in everyday life.

## **Art** (A1/1&2a – A6/6f)

	FSU	1		2		3	4	5		6
	Explorers	Gati	herers		Ехр	lainers		Ev	valuators	
Kno	a) Share their creations, explaining the process they have used.	a) Describe a piece of artwork created & describe the techniques used to create it.			a) Explain a piece of explain the techniq creation, suggesting improved.	ues used in its	1 1	a) Evaluate & critique a piece of artwork created & evaluate the techniques used & decisions made in its creation.		
wled ge (1)					a) Know about an a have learnt about	rtist &/or explain the st	yle of	art from a period of hist	ory or place in	the world they
					b) Know about inventors, designers, engineers, chefs &/or manufacturers relevant who have desproducts relevant to an aspect of D&T learning & evaluate the impact on everyday life					have developed
Colla ge & Textil es (2)	a) Create simple collages using fabric, paper, pasta, beans & larger tactile things. b) Use techniques of cutting & tearing of paper/card to collage. c) Explore different textures and begin to use materials such a threads, cottons, wool, raffia, paper strips and natural fibres to make a simple craft product.	a) Select & sort from materials provided & use them to cut &/or tear to produce a simple collage to convey an idea. b) Sort, arrange & mix materials to create texture & visual interest from a variety of materials. c) Identify and use materials to make a simple textile composition d) Explore sewing/weaving techniques in their simplest forms.	material use ther tear to p more de collage v and purp intention b) Use a of mater cut, torr Mix mat create v c) Use p learnt sewing/v	with clear poseful n.  combination rials that are n and glued. rerials to isual interest.  reviously  weaving ues to create extile	a) Select & sort from materials provided & use them to produce a simple textile collage. b) Use layering techniques within the textile collage. c) Combine applique techniques along with hand sewing to create their collage	a) Use a wider range of textile materials available to collage a textile wall hanging. b) Demonstrate an understanding of & use specific collaging techniques such as overlapping and layering. c) Begin to learn other textile techniques such as wet and needle felting.	rang avail appl b) U select collar as cuuse layer out collar collar as cuuse other other and be information of so visual	elect from a wider ge of materials lable to create an liqued textile collage.  Ise previous learning to ct & apply specific aging techniques, such utting (beginning to templates) and cring for specific come.  egin to Incorporate er media (eg beads) & er techniques (eg proidery) to add visual rest  egin to collect visual rmation from a variety ources, describing the al & tactile elements uate how to	detailed texti purpose eg cubag; including selecting the technique.  b) Use previo & apply specitechniques, stemplates) ar specific outco. c) Begin to us such as mach achieve a specific outco. d) Use visual variety of sou visual & tactil	create a more le collage for a ushion cover or tote g evaluating & most appropriate  us learning to select fic collaging uch as cutting (using ad layering for ome.  e other techniques ine sewing to

Printi ng (3)	a) Enjoy taking simple rubbings: leaf, brick, coin. b) Make prints using given/chosen objects as a stamp eg fingers, vegetables or other objects linked to learning topic	a) Explore & use texture to understand techniques of stamping & rubbing. b) Make a simple stamp to create a composition c) Explore printing simple pictures with a range of hard & soft materials eg cork, pen barrels, sponge. d) Identify which materials made better prints & recognise why.	a) Create a simple indented collagraph (eg on polystyrene) & use to make simple prints ie mono - printing. b) Use collagraph to create a printed image & recognise that this will create a mirror image.	a) Create a simple collagraph using simple materials & techniques (eg textured paper /card &scissors) b) Use collagraph & printing roller to create a printed image & recognise that this will create a mirror image. c) Print using a variety of materials, objects & techniques, including layering colours.	a) Create a more detailed collagraph by suggesting & using a wider range of materials & techniques (eg foam board/sponge) b) Use collagraph & printing roller to create a printed image & recognise that this will create a mirror image. c) Begin to explore three-colour printing. d) Experiment with resist printing eg marbling, wax resist.	a) Design & create a stencil to use for a simple silk screen print. b) Work in a safe & organised way, using equipment appropriately. c) Explore pattern & shape, creating designs for printing. d) Evaluate design to adapt suitability for printing & recognise that this will create a mirror image. e) Use template to create a screen print on fabric.	a) Design & create a more detailed indented collagraph using a more sophisticated technique (eg lino cuts). b) Understand the importance of working in a safe & organised way whilst using sharp equipment. c) Evaluate design to adapt suitability for printing & recognise that this will create a mirror image. d) Use collagraph & printing roller to create a printed image.
Draw ing (4)	a) Begin to use a variety of drawing tools eg pencil, finger, coloured pencils, pastels, chalk.	a) Begin to select & experiment with a variety of media & start to control the types of marks made.	a) Continue to experiment with a variety of media & exert more control over the types of marks made.	a) Begin to demonstrate the use of different grades of pencil & other implements, such as ink, to draw different forms, shape & to	a) Use different media & different grades of pencil to create lines, marks & show developed tone & texture.	a) Continue to use different media & different grades of pencil to create lines, marks & tone & texture. b) Apply a variety of previously learned	a) Apply a variety of previously learned techniques & suggest appropriate media to develop the effect of light on objects & interpret the texture of a surface.

	b) Investigate different lines (thick, thin, wavy, & straight).  c) Represent their thoughts & feelings using their drawings.	b) Begin to extend the drawing tools & surfaces & recognise how to draw lines of different sizes & thickness.  c) Begin to show pattern & texture in their art by adding basic techniques such dots & lines.	b) Begin to explore the use of pattern, line, shape & colour & colour neatly following lines.  c) Begin to use observational drawing to create recognisable images.	show line, tone, & texture.  b) Suggest & use a variety of drawing techniques such as: hatching, scribbling, stippling, & blending to create light/ dark lines.  c) Continue to use observational drawing to create recognisable images with increasing accuracy.	b) Demonstrate understanding of previously learned techniques such as hatching, scribbling, stippling, & blending & recognise how to apply these to compositions.  c) Begin to draw for a sustained period at their own level & begin to use perspective, scale, & proportion.  d) Continue to observe & develop the drawing of landscapes, patterns, faces, & objects, with increasing accuracy.	techniques to add interesting effects (eg reflections, shadows, direction of sunlight).  c) Continue to observe & develop the drawing of landscapes, patterns, faces, & objects, with increasing accuracy using perspective, scale, & proportion.  d) Continue to draw for a sustained period at their own level with increasing independence.	b) Show confidence in using a variety of drawing mediums, including ink & pen. c) Use a viewfinder to select an area of a subject for drawing. d) Work in a sustained & independent way from observation, experience, & imagination.
Paint ing (5)	a) Use a variety of tools including different size/ size brushes & tools i.e. sponge brushes, fingers, twigs. b) Recognise & name the primary colours being used. c) Explore informal colour mixing.	a) Recognise all colours & their names & apply colour with a range of tools. b) Mix primary colours to make secondary. c) Add white to colours to make tints & black to colours to make tones (create colour charts). d) Begin to explore different types of	a) Confidently recognise all colours & can begin to control the types of marks made with a range of media. b) Create a simple colour wheel mixing primary colours to make secondary. c) Experiment to lighten & darken colours without the use of black or white. Can begin to use a range of media &	a) Demonstrate increasing control over the types of marks made & experiment with different effects & textures eg blocking in colour, washes, thickened paint creating textural effects.  b) Create a more complex colour wheel mixing primary & secondary colours to make tertiary colours & begin to	a) Confidently control types of marks made & experiment with different effects & textures Inc. blocking in colour, washes, thickened paint creating textural effects. b) Use light & dark within painting & demonstrate understanding of complimentary colours.	a) Apply previous knowledge of colours to create atmosphere & light effects & mix colour, shades & tones with confidence. b) Use brush techniques & the properties of a painting media or surface to create interest (sawdust, glue, shavings, sand & painting on different surfaces). c) Explore texture of paint (very wet & thin, thick & heavy –add PVA). Consider artists' use of colour & application of it.	a) Work in a sustained & independent way to develop their own style of painting. b) Purposely control the types of marks made & experiment with different techniques & media. c) Apply previous knowledge to mix colour, shades & tones with increasing confidence, understanding which works well in their work & why. d) Use texture & colour & techniques to add interest & meaning to their work.

	with colour, design, texture, form and function.	b) <b>Recall</b> how to use tools safely and appropriately.	b) <b>Recall</b> how to use tools safely and appropriately.	b) Demonstrate understanding of safe use of tools.	b) <b>Demonstrate understanding</b> of safe use of tools.	b) <b>Apply</b> previously learnt safety when using tools.	b) <b>Apply</b> previously learnt safety when using tools
		c) Mark and cut a range of materials with help.	c) Mark and cut a range of materials with more independence.	c) Measure, mark and cut out with some assistance using appropriate techniques.	c) Measure, mark and cut out with some independence using appropriate techniques.	c) Measure, mark and cut out with increased independence using appropriate techniques.	c) Measure, mark and cut out with independence using appropriate techniques.
Making & Technical Knowledge (2)		c) Join materials together in a secure and appropriate way.	c) <b>Recognise</b> how to join materials together in a secure and appropriate way.	c) Construct solid structure using appropriate methods.	c) Construct solid structure with some accuracy, suggesting both temporary and permanent methods such as clamps/glue and screws/nails.	c) Construct solid structure with increasing accuracy, applying understanding of temporary and permanent methods such as clamps, glue, screws and nails.	c) Construct solid structure with accuracy, suggesting both temporary and permanent methods such as clamps, glue, screws and nails and demonstrating why they are used.
				d) Demonstrate understanding that they may need to change things if this improves on their initial design.	d) <b>Suggest</b> ways that their design may need to be modified as they build things if this improves on their initial design.	d) <b>Evaluate</b> their design as they work, making changes if this improves initial design.	d) <b>Evaluate</b> their design as they work and make changes if this improves initial design.
				e) Use suggested finishing techniques appropriately to protect and improve	e) <b>Suggest</b> finishing techniques and use appropriately to protect and improve	e) Justify appropriate finishing techniques to protect and improve the appearance of their project.	e) Justify appropriate finishing techniques to protect and improve the appearance of their product and achieve a

				the appearance of their project.	the appearance of their project.		quality product that is fit for purpose.
	a) Share their creations, explaining the process they have used.	a) <b>Describe</b> changes made	a) <b>Describe</b> changes made and <b>recall</b> why changes were made.	a) Look at the project against their original design and <b>explain</b> how it was changed and why changes were made	a) Look at the project against their original design and <b>explain</b> how it was changed and why changes were made	a) <b>Critique</b> the project against their original design and <b>justify</b> changes were made	a) <b>Critique</b> the project against their original design and <b>justify</b> changes were made
Evaluating (3)		b) <b>Describe</b> what they would have done differently, if anything.	b) <b>Describe</b> what they would have done differently, if anything.	b) Suggest how to improve their product.	b) Suggest how to improve their product.	b) Suggest how to improve the product and <b>hypothesise</b> on the effectiveness of these changes.	b) Suggest how to improve the product and hypothesise on the effectiveness of these changes.
		c) Evaluate their product by describing how well it works and comparing it to their original design.	c) Evaluate their product by describing how well it works, and comparing and contrasting it to their original design.	c) Demonstrate an understanding of whether their product is fit for the purpose intended	c) Demonstrate an understanding of whether their product is fit for the purpose intended	c) Reach informed conclusions when evaluating whether their product is fit for the purpose intended	c) Reach informed conclusions when evaluating whether their product is fit for the purpose intended
Cooking (4)	a) Use a range of small tools.		a) Understand where food comes from b) Use the basic principles of a healthy diet and varied diet to prepare dishes			a) Understand and apply the principles of a healthy and varied diet, seasonality and how food is grown, reared, caught and processed.	
						b) Prepare, cook predominantly savoury dishes using a range of cooking techniques.	

### **Expectations of our Year 1 Artists & Designers**

By the end of Year 1 our young artists & designers are developing as *gatherers* & demonstrated beginning to use a range of simple art & design techniques involving

### **Expectations of our Year 2 Artists & Designers**

By the end of Year 2 our young artists & designers will have become secure *gatherers* & demonstrated they can use effectively a range of simple art & design

painting, drawing, collage, textiles, sculpture, printing & woodworking together with art & design skills & simple subject vocabulary to:

1. Describe a piece of work created & describe the techniques used to create it.

techniques involving painting, drawing, collage, textiles, sculpture, printing & woodworking together with art & design skills & simple subject vocabulary to:

1. Describe a piece of work created & describe the techniques used to create

#### it.

### **Expectations of our Year 3 Artists & Designers**

By the end of Year 3 our young artists & designers are developing as *explainers* & demonstrated they can use a range of art & design techniques involving painting, drawing, collage, textiles, sculpture, printing & woodworking together with art & design skills & subject vocabulary to:

- 1. Explain a piece of work created & explain the techniques used in its creation, suggesting ways it could be improved.
- 2. Know about an artist &/or explain the style of art from a period of history or place in the world they have learnt about

### **Expectations of our Year 5 Artists & Designers**

By the end of Year 5 our young artists & designers are developing as *evaluators* & demonstrated they can use a range of art & design g techniques involving painting, drawing, collage, textiles, sculpture, printing & woodworking together with art & design skills & more technical subject vocabulary to:

- 1. Evaluate & critique a piece of work created & evaluate the techniques used & decisions made in its creation.
- 2. Know about an artist &/or explain the style of art from a period of history or place in the world they have learnt about
- 3. Know about inventors, designers, engineers, chefs &/or manufacturers relevant who have developed products relevant to an aspect of D&T learning & evaluate the impact on everyday life

### **Expectations of our Year 4 Artists & Designers**

By the end of Year 4 our young artists & designers will have become secure *explainers* & demonstrated they can use effectively a range of art & design techniques involving painting, drawing, collage, textiles, sculpture, printing & woodworking together with art & design skills & subject vocabulary to:

- 1. Explain a piece of work created & explain the techniques used in its creation, suggesting ways it could be improved.
- 2. Know about an artist &/or explain the style of art from a period of history or place in the world they have learnt about

### **Expectations of our Year 6 Artists & Designers**

By the end of Year 6 our young artists & designers will have become secure *evaluators* & demonstrated they can use effectively a range of art & design techniques involving painting, drawing, collage, textiles, sculpture, printing & woodworking together with art & design skills & more technical subject vocabulary to:

- 1. Evaluate & critique a piece of work created & evaluate the techniques used & decisions made in its creation.
- 2. Know about an artist &/or explain the style of art from a period of history or place in the world they have learnt about
- 3. Know about inventors, designers, engineers, chefs &/or manufacturers relevant who have developed products relevant to an aspect of D&T learning & evaluate the impact on everyday life

## French (F1/FSUa - F5/6b)

Year Group	FSU	1	2	3	4	5	6
	Explorers	orers Gatherers Explainers		ainers	Evalu	Evaluators	
Listening (1)	a) Listening to each other and adults saying hello.	a) Pupils follow key instructions if French eg Silence Asseyez vous.	a) Understand: - at least 4 colours (red, blue, yellow, green)4 fruits (apple, pear, banana, kiwi) -numbers 1 - 5	a) Understand a few spoken words/phrases: -Teacher's instructions -Days of the week -A few words in song -Colours -Numbers 0-12	a) Understand a range of familiar spoken phrases: -Myself, family & school -Numbers 13-31 b) Respond to a clear model of language	a) Understand main pointts from spoken language passage from familiar language: -Short rhyme or sons -Weather forecast -Numbers 32-50	a) Understand main points & some detail from short spoken passage: -describing people's what people are wearing -an announcement
Speaking (2)	a) Children can say hello in a range of languages.	a) Pupils answer the register in a range of languages eg French, Polish, Latvian and Spanish. b) They use basic greetings eg Bonjour and Merci.	a) Pupils use basic greetings eg Bonjour, Au Revoir, Merci. b) Pupils can say the names of at least 4 colours and 4 fruits.	a) Say/repeat a few simple words & phrases: -greetings b) Know single letter sound pronunciation c) Imitate correct pronunciation with some success	a) Answer simple questions & give basic info: -about the weather -brothers & sisters -pets b) Show awareness of sound patterns c) Be clearly understood	a) Ask & answer simple questions: -food likes -hobbies/interests b) Pronounce letter strings	a) Take part in a simple conversation Express an opinion b) Pronounce range of letter strings c) Begin understanding how accents change sounds d) Substitute vocab to vary questions & statements e) More accurate pronunciation & developing intonation
Reading (3)		-	-	a) Recognise & read out a few familiar words or phrases: -from stories & rhymes -labels on familiar objects -the date	a) Understand some familiar written phrases: -simple weather phrases -basic animal descriptions	a) Understand main point/s in short written text: -simple postcard/email b) Match sound to print by reading aloud familiar words/phrases	a) Understand the main points & some detail from short written text b) Begin to read independently

				b) Use visual clues to help reading		c) Use a book or glossary to find word meanings	c) Use bilingual dictionary to look up new words
Writing (4)		-	-	a) Write or copy simple words/symbols correctly: -personal info (eg age) -numbers -colours -names of fruit	a) Write 1 or 2 short sentences with support (eg a model or cloze): -describe animals -introduce family b) Begin to spell commonly used words correctly	a) Write a few short sentences with support using already learnt -describe planets -simple note/message -hobbies b) Spell words that are readily understandable	a) Write a short text on familiar topic, adapting language already learnt b) Spell commonly used words correctly
Intercultural Understanding (5)	a) ELG: They know about similarities and differences between themselves and others, and among families, communities and traditions.	a) Understand that people speak different languages in different countries. b) Explore an aspect of a different culture eg Chinese New Year or Diwali.	a) Know some traditional French songs. b) Learn a traditional French Dance.	a) Understand & respect people/places in the world are different to me & where I live b) Understand that people speak a different language to my own	a) Identify similarities & differences in my culture to another b) Talk about celebrations in other cultures & know about daily life in countries different to mine (eg Easter)	a) Respect & understand cultural diversity b) Understand how symbols, objects & pictures can represent a country	a) Talk about, discuss & present info about a particular country's culture b) Begin to understand more complex issues which affect countries in the world today
Vocab		Bonjour Merci  range of ways to answer register in different languages.	Bonjour, Au Revoir, Merci 1 – 5 4 colours 4 fruits	Simple greetings 11 colours 12 foods Days of the week	Parts of the body Zoo animals Members of the family Basic weather expressions	Shops Planets Breakfast foods Seasons More weather expressions	Some occupations Phrases needed when playing a game Different types of accommodation

### **Expectations of our Year 1 Linguists**

By the end of Year 1 our young linguists are developing into *gatherers* by demonstrating an understanding of listening to and speaking basic French:

- 1. Follow key instructions eg Silence, Asseyez vous
- 2. Speak using basic greetings eg Bonjour and Merci

### **Expectations of our Year 3 Linguists**

By the end of Year 3 our young linguists are developing into *explainers* by demonstrating increasing ability to listen and speak basic French and beginning to write simple sentences in French:

- 1. Write a simple sentence describing the colour of something eg Elmer est bleu et rouge
- 2. Demonstrate an understanding of a wider range of instructions eg Regardez, Ecoutez, Venez ici

### **Expectations of our Year 5 Linguists**

By the end of Year 5 our young linguists are developing into *evaluators* by demonstrating increasing ability to listen and speak French and write more complex sentences in French:

- 1. Write sentences using correct grammar rules relating to adjectives eg Mars est une petite planète rouge
- 2. Apply what they have learnt when creating a timetable / sentences relating to hobbies they take part in

### **Expectations of our Year 2 Linguists**

By the end of Year 2 our young linguists are secure *gatherers* by demonstrating increasing understanding of listening to and speaking basic French:

- 1. Speak using more basic greetings eg Au revoir
- 2. Recall, understand and can say at least 4 colour and 4 fruits

### **Expectations of our Year 4 Linguists**

By the end of Year 4 our young linguists are secure *explainers* by demonstrating increasing ability to listen and speak basic French and writing simple sentences in French in a wider range of contexts:

- 1. Write sentences describing animals using a quantifier (très) and wider range of adjectives eg Le singe est rigolo, le lion est très féroce
- 2. Demonstrate an understanding of the vocabulary relating to family members by responding to questions and/or writing about their family.

### **Expectations of our Year 6 Linguists**

By the end of Year 6 our young linguists are secure *evaluators* by demonstrating increasing ability to listen and speak French and write more complex sentences in French in a wider range of contexts:

- 1. Write sentences on a familiar topic which uses mais (but) and the negative eg A Appledore il y a un café et une église mais\_il n 'y a pas de hôpital
- 2. Apply earlier learnt grammar rules when creating more complex sentences eg when describing their home or an imagined home

<b>Expectations o</b>	four Year	1 Scientists
-----------------------	-----------	--------------

By the end of Year 1 our young scientists are developing into *gatherers* and demonstrating age appropriate scientific knowledge and scientific working by achieving all objectives in the following units of enquiry:

• plants, health and growth, properties of materials, sound and seasonal changes and light

### **Expectations of our Year 3 Scientists**

By the end of Year 3 our young scientists are developing into *explainers* and demonstrating age appropriate scientific knowledge and scientific working by achieving all objectives in the following units of enquiry:

plants, animals including humans, rocks, forces and magnets, and light

### **Expectations of our Year 5 Scientists**

By the end of Year 5 our young scientists are developing into *evaluators* and demonstrating age appropriate scientific knowledge and scientific working by achieving all objectives in the following units of enquiry:

• living things and their habitats, animals including humans, properties and changes of materials, forces and space,

### **Expectations of our Year 2 Scientists**

By the end of Year 2 our young scientists are secure *gatherers* and demonstrate age appropriate scientific knowledge and scientific working having by achieving all objectives in the following units of enquiry:

• living things and their habitats, animals including humans, changing materials, force and movement, season changes and electricity

### **Expectations of our Year 4 Scientists**

By the end of Year 4 our young scientists are secure *explainers* demonstrating age appropriate scientific knowledge and scientific working by achieving all objectives in the following units of enquiry:

 living things and their habitats, animals including humans, states of matter, sound and electricity

### **Expectations of our Year 6 Scientists**

By the end of Year 6 our young scientists have become secure *evaluators* demonstrating age appropriate scientific knowledge and scientific working by achieving all objectives in the following units of enquiry:

• living things and their habitats, animals including humans, evolution and inheritance, light and electricity

## **Our Values**

		Autumn 1	Autumn 2 Spring 1		Spring 2	Spring 3	Spring 3
Year 1	1 Responsible		Respectful	Healthy (body)	Inspirational	Honest	Kind
Year 2		Inclusive	Determined	Healthy (mind)	Friendship	Positive	Creative

# Philosophy for Children (P4C) is the way we deliver most of our Values Curriculum

	FSU	1 & 2	3 & 4	5 & 6
Speaking	Some people speak	Most people speak	I speak Most people speak	I speak Most people speak We help others to speak
Listening	Listen to others	Listen carefully to other speakers and give them eye contact	Listen carefully to every speaker	Listen carefully to every speaker Let people finish saying what they wanted to say
Turn taking	Take turns to speak	Take turns to speak one at a time	Take turns to speak one at a time	Take turns to speak one at a time
Concentrating	Concentrate on the stimulus	Concentrate on the stimulus and reflect on it	Stick with the main dialogue topics	Stick with the main dialogue topics
Comparing & contrasting	Identify similarities and differences	Identify similarities and differences	Identify similarities and differences	Identify similarities and differences
Questioning	Ask question to a key person	Begin to ask questions of others	Ask questions of others	By asking others questions we understand more what they mean
Opinion	Start to use vocabulary such as "I agree" and "I disagree"	Know it's ok to disagree	Disagree without showing anger	Disagree without showing anger
Reasoning	Begin to use the word "because" to give reasons	Give reasons	Give reasons	Give reasons Suggest conclusions Suggest lessons learnt
Trip, visits & other opps.				

## **P4C Values and the DfE Relationships and Health Education Requirements**

Relationship	os Education – what pupils should know	FSU	1/2	3/4	5/6
Families and	1.that families are important for children growing up because they can give love, security and stability.	<b>√</b>		<b>√</b>	$\checkmark$
people who care for me (FPC)	2. the characteristics of healthy family life, commitment to each other, including in times of difficulty, protection and care for children and other family members, the importance of spending time together and sharing each other's lives.	<b>√</b>	<b>√</b>	<b>√</b>	<b>✓</b>
	3. that others' families, either in school or in the wider world, sometimes look different from their family, but that they should respect those differences and know that other children's families are also characterised by love and care.		<b>√</b>	<b>√</b>	<b>√</b>
	4. that stable, caring relationships, which may be of different types, are at the heart of happy families, and are important for children's security as they grow up.		<b>√</b>	<b>✓</b>	<b>✓</b>
	5. that marriage represents a formal and legally recognised commitment of two people to each other which is intended to be lifelong.			<b>√</b>	<b>✓</b>
	6. how to recognise if family relationships are making them feel unhappy or unsafe, and how to seek help or advice from others if needed.		<b>√</b>		<b>√</b>
Caring friendships	1. how important friendships are in making us feel happy and secure, and how people choose and make friends.	✓	<b>√</b>	<b>√</b>	<b>√</b>
(CF)	2. the characteristics of friendships, including mutual respect, truthfulness, trustworthiness, loyalty, kindness, generosity, trust, sharing interests and experiences and support with problems and difficulties.	<b>√</b>	<b>√</b>	<b>✓</b>	<b>✓</b>
	3. that healthy friendships are positive and welcoming towards others, and do not make others feel lonely or excluded.		<b>√</b>	$\checkmark$	<b>✓</b>
	4. that most friendships have ups and downs, and that these can often be worked through so that the friendship is repaired or even strengthened, and that resorting to violence is never right.		<b>√</b>	<b>√</b>	<b>✓</b>
	5. how to recognise who to trust and who not to trust, how to judge when a friendship is making them feel unhappy or uncomfortable, managing conflict, how to manage these situations and how to seek help or advice from others, if needed.		<b>√</b>	<b>✓</b>	<b>✓</b>
Respectful relationships	1. importance of respecting others, even when they are very different from them (for example, physically, in character, personality or backgrounds), or make different choices or have different preferences or beliefs.	<b>✓</b>	<b>√</b>	<b>✓</b>	<b>✓</b>
(RR)	2. practical steps they can take in a range of different contexts to improve or support respectful relationships		<b>√</b>	$\checkmark$	$\checkmark$
	3. the conventions of courtesy and manners.	<b>√</b>	$\checkmark$	<b>✓</b>	<b>√</b>
	4. the importance of self-respect and how this links to their own happiness.			$\checkmark$	<b>√</b>
	5. that in school and in wider society they can expect to be treated with respect by others, and that in turn they should show due respect to others, including those in positions of authority.		<b>√</b>	<b>√</b>	<b>√</b>
	6. about different types of bullying (including cyberbullying), the impact of bullying, responsibilities of bystanders (primarily reporting bullying to an adult) and how to get help.		<b>√</b>	<b>✓</b>	<b>✓</b>
	7. what a stereotype is, and how stereotypes can be unfair, negative or destructive.				<b>✓</b>
	8. the importance of permission-seeking and giving in relationships with friends, peers and adults.		$\checkmark$		<b>√</b>
Online	1. that people sometimes behave differently online, including by pretending to be someone they are not.			$\checkmark$	$\checkmark$
relationships (OR)	2. that the same principles apply to online relationships as to face-to-face relationships, including the importance of respect for others online including when we are anonymous.			<b>✓</b>	<b>✓</b>

	3. the rules and principles for keeping safe online, how to recognise risks, harmful content and contact, and how to report them.	<b>√</b>		<b>✓</b>	<b>√</b>
	4. how to critically consider their online friendships and sources of information including awareness of the risks associated with people they have never met.			<b>√</b>	<b>√</b>
	5. how information and data is shared and used online.			<b>✓</b>	<b>√</b>
Being safe	1. what sorts of boundaries are appropriate in friendships with peers and others (including in a digital context).	<b>√</b>	$\checkmark$	$\checkmark$	$\checkmark$
(BS)	2. about the concept of privacy and the implications of it for both children and adults; including that it is not always right to keep secrets if they relate to being safe.		<b>√</b>	<b>√</b>	<b>✓</b>
	3. that each person's body belongs to them, and the differences between appropriate and inappropriate or unsafe physical, and other, contact.		<b>√</b>	<b>√</b>	<b>√</b>
	4. how to respond safely and appropriately to adults they may encounter (in all contexts, including online) whom they do not know.		<b>√</b>	<b>✓</b>	<b>√</b>

aid (BFA)	2. concepts of basic first-aid, for example dealing with common injuries, including head injuries.		<b>√</b>	<b>√</b>	
Changing adolescent	1. key facts about puberty and the changing adolescent body, particularly from age 9 through to age 11, including physical and emotional changes.		<b>√</b>	<b>√</b>	<b>√</b>
body (CAB)	2. about menstrual wellbeing including the key facts about the menstrual cycle.			$\checkmark$	$\checkmark$

The rows and columns below map our P4C Values half-termly focus to the DfE statutory requirements for both Relationships and Health Education (RSHE). Lessons that are not part of the DfE's statutory guidance are included because they ensure a comprehensive PSHE programme.

## Year 1 Autumn 1 P4C Value Responsible

	DfE end of primary statutory statements	Lesson title
Nursery	HP5, HE1, FPC1, CR1	Looking after myself
		Looking after others
		Looking after the environment
Reception	FPC1, FPC2, CR1, CR2, BS1	Looking after special people
		Looking after my friends
		Being helpful at home and caring for our classroom
		Caring for our world
Year 1/2	HP4, HP5	Wash and brush up
	BS1	At school
	BS6, BS7, BS8	Feeling safe
	RR5	Taking care of something
	Wider curriculum (not covered by DfE	Around and about school – how can we look after our environment
	statutory requirements)	
Year 3/4	BS1	At school
	MW5	Our helpful volunteers
	BS6, BS7, BS8, PHF4	Who helps us stay healthy and safe?
	RR3, RR5, OR2, OR3,	How do we make a difference?
	RR3, OR4, OR5, ISH2, ISH6, ISH7	In the news!
	Wider curriculum (not covered by DfE	Environmental organisations
	statutory requirements)	
Year 5	BS1	At school
		Rights, responsibilities and duties
	BS6, BS7, BS8	Keeping safe
	DAAT1	Keeping safe
	RR5, RR6, BS7, CF3, CF4, CF5	Taking responsibility
	RR5, RR6, BS7, CF3, CF4, CF5	Taking responsibility with each other
	Wider curriculum (not covered by DfE statutory requirements)	Happy shoppers

Year 6	BS1	At school
	BS6, BS7, BS8	Keeping safe
	RR8, OR1, OR2, OR3, OR4, BS1, MW1, ISH4, ISH5, ISH6	Fakebook friends
	RR5, RR6, BS7, CF3, CF4, CF5	Taking responsibility
	CF3	New beginnings
	Wider curriculum (not covered by DfE	Happy shoppers
	statutory requirements)	

## Year 1 Autumn 2 P4C Value Respectful

	DfE end of primary statutory statements	Lesson title
FSU	RR1, RR3	Respecting classroom and toys
		What makes us different from each other
		Diwali
Year 1/2	RR1, RR2, RR3	Showing respect
Year 3/4	RR4, RR5, RR6, BS7, CF3, CF4, CF5	Self-respect
		Respecting others
		Respecting property
Year 5/6	RR4, RR5, RR6, RR7, RR8	What does respect mean?
		What does respect look like
		How do we show respect?
		Respecting others

## Year 1 Spring 1 P4C Value Healthy (body)

	DfE end of primary statutory statements	Lesson title
FSU	HE1, HP3, DAT1	What does our body need?
		Healthy eating
		What is safe to go into my body?
Year 1/2	HE1, HE2, HP2, HP3, HP4, HP5, HP6, PHF1, PHF3, DAT1,	I can eat a rainbow
	MW3, MW5	Eat well
		Healthy Me
		Super Sleep
		Medicines
		Helping us to keep clean and healthy
Year 3/4	HE1, HE2, HE3, HP5, HP6, RR1, RR2, RR3, DAT1	Ready, steady, cook
		Feeling poorly
		Medicines: check the label

		Alcohol and cigarettes: the facts Help or harm?
		For or against
Year 5/6	MW1, MW5, MW6, MW7, DAT1, ISH2, ISH6, BS1, PHF1,	Five ways to wellbeing project
	PHF2, PHF3, PHF4, HE1, HE3, HP3, HP4, HP6,	What sort of drug?
		Smoking: what is normal?
		Would you risk it?
		What is the story?

## **Year 1 Spring 2 P4C Value Inspirational**

	DfE end of primary statutory statements	Lesson title
FSU		What does it mean?
Year 1/2		Seize new opportunities and keep an open-mind
		What would you like to do when you are older?
		Hopes and dreams for the future
Year 3/4	N/a	Who are you inspired by?
		How else do people inspire
		Inspirational Places
Year 5/6		Inspirational people
		Who inspires you?

### **Year 1 Summer 1 P4C Value Honest**

	DfE end of primary statutory statements	Lesson title
FSU	CF2	Examples of honesty
Year 1/2	CF2	'The Empty Pot'
		'The boy who cried wolf'
		'Tiddler'
		'Bog Baby'
		'The woodcutter and the axe' - Aesop's Fable
		https://www.youtube.com/watch?v=o2MH1gYE8e0
Year 3/4	CF2	'The boy who cried wolf'
		'The Gruffalo'
		Ask Lara (BBC Learning clip)
Year 5/6	CF2	What does it mean?

### **Year 1 Summer 2 P4C Value Kindness**

FSU	CF2	'Kindness Elves'
		'Rainbow Fish'
		'Percy the Park keeper'
Year 1/2	CF2, CF3, CF4, RR2, RR3, MW3	An act of Kindness
		'The Magic Paintbrush'
		'Have you filled a Bucket Today?'
		'The Friendship Code'
		'Dogger'
		'Room on the Broom'
		Pay it forward
Year 3/4	CF2	
Year 5/6	CF2	'Little Bears little boat'
		'Try a little kindness' song by Glen Campbell

### **Year 2 Autumn 1 P4C Value Inclusive**

	DfE end of primary statutory statements	Lesson title
FSU	RR1, RR2	Elmer
		Helping a friend
Year 1/2	FPC3, FPC4, RR1, RR2, MW8	Same or different?
		'Something Else'
		'Odd dog out'
		How do we make others feel?
		When someone is left out
		'Tusk, Tusk'
		'Fruit salad'
		Together we are a masterpiece
Year 3/4	FPC3, RR1, RR2, RR6, OR2, MW8, ISH5	Let's celebrate our differences
		Team challenge
Year 5/6	RR1, RR2, RR3, RR4, RR5, RR6, RR7, FPC3, CF2, CF3, BS1,	OK to be different
	MW3, OR2, ISH2, ISH6	We have more in common than not
		Tolerance and respect for others
		Being inclusive
		Team work
		Black history activity
		Anti-bullying
		Happy Being Me

	Boys will be boys? Challenging gender stereotypes
--	---

## Year 2 Autumn 2 P4C Value Determined

	DfE end of primary statutory statements	Lesson title		
FSU		What does determination mean? Being determined		
Year 1/2		'Stick Man' by Julia Donaldson		
		'The Emperor's Egg/Dynasties' – Martin Jenkins		
		Louis Braille –(Magic Grandad video)		
		Thomas Edison		
		Finding Nemo (book of the film)		
	N/a	Lauren Steadman (video from Strictly Come Dancing)		
Year 3/4		Being determined		
		'The Most Magnificent thing' – Ashley		
		Spires		
		'The Tortoise and the Hare' – Aesop fable		
Year 5/6		What determination means		
		Bruce and the spider		
		Stuck – Oliver Jeffers		

## Year 2 Spring 1 P4C Value Healthy (mind)

	DfE end of primary statutory statements	Lesson title		
FSU		Listening to my feelings		
Year 1/2	CF2, CF3, CF4, RR5, RR6, MW8, MW2, MW3, MW4, MW6,	Thinking about feelings		
	MW7, MW9	Our feelings		
		Who can help?		
		Let's all be happy		
		Pass on the praise		
Year 3/4	MW1, MW2, MW3, MW4, MW6, MW7, MW9, CAB1, FPC1,	Feelings		
	FPC2, FPC4, CF5, RR2	Coping with loss		
		Moving house		
		My feelings are all over the place		
Year 5/6	MW1, MW2, MW3, MW4, MW6, MW7, MW9, MW10, FPC1,	How are you feeling?		
	FPC2, CF3, CAB1, HE3, DAT1	Our emotional needs		
		Helpful or unhelpful? Managing change		

## Year 2 Spring 2 P4C Value Friendship

	DfE end of primary statutory statements	Lesson title		
FSU				
Year 1/2	CF1, CF2, CF3, CF4, CF5, RR1	Good friends		
		How are you listening?		
Year 3/4	CF1, CF2, CF4, CF5, RR3	Looking after special people		
Year 5/6	CF1, CF2, CF3, CF4, CF5, RR1, RR2, RR3, RR4, RR5, MW6, FPC1, FPC4, MW1, MW2, MW3	Qualities of friendship		

### **Year 2 Summer 1 P4C Value Positive**

	DfE end of primary statutory statements	Lesson title
FSU		Bucket filling story
		Super Learner
		Wow! Moments
		What makes you feel good about yourself?
Year 1/2		'Bear Necessities'
		'The Ugly Five' – Julia Donaldson
		'The Bear, The Piano, The Dog and the Fiddle' – David Litchfield
	N/a	Positive posters
		'The Lion Inside' – Rachel Bright
Year 3/4		'How full is your bucket'
		2 photos – one of person who has given up and one who hasn't
		Image of glass half full/half empty
Year 5/6		Image of glass half full/half empty
		Black dot
		Positive, successful people

### **Year 2 Summer 2 P4C Value Creative**

	DfE end of primary statutory statements	Lesson title	
FSU		Josie and the Junk box – Rigby star pink level	
Year 1/2		'The dot' – Peter H Reynolds	
	N/a	'Beautiful Oops' – Barney Saltzberg	
		A cloudy Lesson	
		https://www.literacyshed.com/cloudylesson.html	

	'Journey' – Aaron Becker 'Ish' – Peter H Reynolds
	'Use your imagination' – Nicola O'Byrne
Year 3/4	The dot
Year 5/6	Introducing value
	'The Day the crayons quit' – Drew Daywalt
	Inventions
	How creative are you?

## **Growing and changing**

	DfE end of primary statutory statements	Lesson title
FSU		Life stages, plants, animals, humans
		Human life cycle
		Getting Bigger
		Me and My Body
Year 1	PHF4, FPC2, CAB1, FPC6, CF4, RR8, BS1, BS2, BS4, BS5, BS6,	Inside my wonderful body!
	BS7, BS8	Taking care of a baby
		Then and now
		Surprises and secrets
		Keeping privates private
Year 2	CAB1, BS2,	Haven't you grown?
	BFA1, BFA2	My body, your body
		Respecting privacy
		Basic first aid
Year 3	CF1, CF2, CF5, OR2, BS2, BS3, BS7	Relationship Tree
		Body space
		Secret or surprise
		My changing body
Year 4	BS1, BS2, BS3, BS4, BS5, BS7, CAB1, CAB2, RR1, RR8, MW2,	All change!
	MW3, FPC3, FPC4, FPC5, CF1, CF2, CF4, CF5	Period positive
		Secret or surprise?
		Together
	BFA1, BFA2	Basic First Aid
Year 5	BBS2, BS3, BS4, BS6, BS7, BS8, CAB1, CAB2	Changing bodies and feelings
		Growing up and changing bodies
		Safe and unsafe secret

Year 6	FPC2, FPC3, FPC4, FPC6, MW2, MW3, MW4, MW6, MW9,	Helpful or unhelpful? Managing change
	ISH2, ISH5, CAB1, CAB2, RR1, RR2, RR4, RR6, RR7, OR1, OR2,	I look great!
	OR3, OR4, OR5, OR6, BS2, BS3, BS4, BS5, BS6, BS7, BS8, HP5,	Media manipulation
		Pressure online
		Is this normal?
		Safe or unsafe secret
		Making babies
		What is HIV?

## **Keeping Myself safe**

	DfE end of primary statutory statements	Lesson title		
FSU	ISH1,OR3	Keeping safe online		
Year 1	FPC6, RR8, BS1, BS2, BS5, BS7, BS8	Good or bad touches		
Year 2	BS1, BS3, BS4, BS5, MW2,	I do not like that!		
		Fun or not?		
		Should I tell?		
		Some secrets should never be kept		
Year 3	OR1, OR2, OR3, OR4, OR5, HE1, HE3, HE6, BS1, BS4, BS5,	Super searcher		
	MW3, MW4, ISH3, ISH5, ISH7	None of your business!		
Year 4	OR2, OR3, OR5, ISH3, ISH5, CF3, CF5, RR4, RR6, BS1, BS6,	Picture Wise		
	MW4, DAT1	How dare you!		
		Keeping ourselves safe		
Year 5	RR6, OR1, OR2, OR3, OR4, OR5, MW8, ISH3, ISH5, ISH7, BS1,	Spot bullying		
	BS4	Play, Like, share		
Year 6	FPC3, FPC4, FPC5, FPC6,	Don't force me		
	RR1, RR5, RR8, BS1, BS2, BS3, BS4, BS5, BS7, BS8, OR1, OR3,	Acting appropriately		
	OR5, ISH1, ISH3, ISH4, ISH5, ISH7	It's a puzzle		
		Traffic lights		
		To share or not to share?

## **Expectations of our Year 1 Athletes**

By the end of Year 1 our young athletes are developing into *gatherers* & beginning to demonstrate they can be physically active for sustained periods of time while learning to:

- 1. Children recognise how important it is to stay hydrated and can describe all the health benefits of drinking water
- 2. Master basic movements including running, jumping, throwing and catching
- 3. Develop balance, agility and co-ordination
- 4. Participate in team games
- 5. Perform dances using simple movement patterns
- 6. Describe their activities

## **Expectations of our Year 3 Athletes**

By the end of Year 3 our young athletes are developing into *explainers* & beginning to demonstrate they can support their health and fitness by becoming physically confident, developing an understanding of how to improve and to:

- 1. Children to demonstrate an understanding of how to improve their level of fitness and to explain what happens to our bodies when we exercise
- 2. Learn rules and tactics for competitive games taught in their year group
- 3. Swim at least 25 metres, use a range of strokes effectively and perform safe self-rescue
- 4. Run, jump, throw and catch in isolation
- 5. Play competitive games
- 6. Develop flexibility, strength, technique, control and balance
- 7. Perform dances using a range of movement patterns
- 8. Explain choices made in their performance

## **Expectations of our Year 5 Athletes**

By the end of Year 5 our young athletes are developing into *evaluators* & beginning to demonstrate they can compete, while exhibiting the importance of respect and fairness and will be able to recognise and evaluate their own success to:

## **Expectations of our Year 2 Athletes**

By the end of Year 2 our young athletes will have become secure *gatherers* & demonstrated they can be physically active for sustained periods of time while learning to:

- 1. Children recognise that to stay healthy they need an adequate and varied diet and can identify different food groups
- 2. Master basic movements including running, jumping, throwing and catching, develop balance, agility and co-ordination, and begin to apply these in a range of activities
- 3. Participate in team games, developing simple tactics for attacking and defending.
- 4. Perform dances using simple movement patterns
- 5. Describe their activities

## **Expectations of our Year 4 Athletes**

By the end of Year 4 our young athletes will have become secure *explainers* & demonstrated they can support their health and fitness by becoming physically confident, developing an understanding of how to improve and to:

- 1. Children to demonstrate an understanding of the different food groups and explain the impact they have on our bodies and digestive system
- 2. Learn rules and tactics for competitive games taught in their year group
- 3. Swim at least 25 metres, use a range of strokes effectively and perform safe self-rescue
- 4. Run, jump, throw and catch in isolation and in combination
- 5. Play competitive games and apply basic principles suitable for attacking and defending
- 6. Develop flexibility, strength, technique, control and balance
- 7. Perform dances using a range of movement patterns
- 8. Explain choices made in their performance

## **Expectations of our Year 6 Athletes**

By the end of Year 6 our young athletes will have become secure *evaluators* & demonstrated they can compete, while exhibiting the importance of respect and fairness and will be able to recognise and evaluate their own success to:

- 1. Children to understand the importance of developing healthy sleeping patterns and the positive impact of a good night's sleep
- 2. Learn rules and tactics for competitive games taught in their year group.
- 3. Run, jump, throw and catch in isolation and in combination
- 4. Play competitive games and apply basic principles suitable for attacking and defending
- 5. Develop flexibility, strength, technique, control and balance
- 6. Perform dances using a range of movement patterns
- 7. Critique their/others performance and compare with previous performance
- 8. Take part in outdoor and adventurous activity challenges individually

- 1. Children to take ownership of their own health & fitness by making reasoned judgements about how much/often they should exercise, what they should be eating/ drinking and what their sleeping habits should be.
- 2. Learn rules and tactics for competitive games taught in their year group.
- 3. Run, jump, throw and catch in isolation and in combination
- 4. Play competitive games and apply basic principles suitable for attacking and defending
- 5. Develop flexibility, strength, technique, control and balance
- 6. Perform dances using a range of movement patterns
- 7. Critique their/others performance and compare with previous performance
- 8. Take part in outdoor and adventurous activity challenges individually and within a team

## Religious Education (RE1/FSUa – RE6/6c

Year Group	ECH	1	2	3	4	5	6
Explorers	FSU	Gath	nerers	Expla	niners	Evalu	ıators
	a) Make comments about what they have heard. (U)	a) identify core beliefs and concepts studied and give a simple description of what they mean (eg when learning about the Genesis 1 version	a) Identify core beliefs and concepts studied and give a simple description of what they mean (eg recall the account of Jesus' birth and/or story of	a) Explain the core beliefs and concepts studied (Genesis 1 story as the beginning of the Bible's Big Story (2.1)	a) Explain the core beliefs and concepts studied (Holy Week – Christian belief that Jesus came to rescue or save people 2.5)	a) Identify and explain the core beliefs and concepts studied, using examples from sources of authority in religions (eg different types of text 2.1)	a) Identify and explain the core beliefs and concepts studied, using examples from sources of authority in religions (eg Genesis 1)
Make sense of a range of religious beliefs (1)	b) Express their ideas and feelings about experiences using full sentences including past, present and future tenses.  (S)	b) Give examples of how stories show what people believe (eg Christian idea that God is a forgiving Father – Prodigal Son Parable)	Matthew the Tax Collector)  b) Give examples of how stories show what people believe (eg the events of Holy Week and the idea of Jesus rescuing people)	b) Make clear links between texts/sources of authority and the key concepts studied (eg the story of Noah and the idea of God's promise/covenant 2.2)	b) Make clear links between texts/sources of authority and the key concepts studied (eg beliefs about love, commitment and promises 2.11	b) Give meanings for texts/sources of authority studied, comparing these ideas with ways in which believers interpret texts/sources of authority (Christian beliefs about God 2.1; Gospel texts 2.4)	b) Give meanings for texts/sources of authority studied, comparing these ideas with ways in which believers interpret texts/sources of authority (eg Genesis 1)
		c) Give clear, simple accounts of what stories and other texts mean to believers (eg in 'World and Others' unit – everyone being unique and valuable)	c) Give clear, simple accounts of what stories and other texts mean to believers (eg recognise that Jesus gives instructions about how to behave)	c) Suggest what texts/sources of authority can mean and give examples of what these sources mean to believers (eg what Jesus' actions towards outcasts mean for a Christian 2.4)	c) Suggest what texts/sources of authority can mean and give examples of what these sources mean to believers (eg what Christians say about the importance of the events of Holy Week 2.5)		
Understand the impact and significance of	a) Know some similarities and differences	a) Give examples of how people use stories, texts	a) Give examples of how people use stories, texts and	a) Make simple links between stories, teachings and concepts	a) Make simple links between stories, teachings and concepts	a) Make clear connections between what people believe	a) Make clear connections between what people believe

religious and non-religious beliefs (2)	between things in the past and now, drawing on their own experiences and what has been read in class. (UW)  b) Know some similarities and differences between religious and cultural communities in this country, drawing on their experiences and what ash been read in class (UW)	and teachings to guide their beliefs and actions (eg. Christians forgive others and say thank you and sorry to God)  b) Give examples of ways in which believers put their beliefs into practice (eg how people show they care for the world)	teachings to guide their beliefs and actions (eg describe what Christians do at Christmas)  b) Give examples of ways in which believers put their beliefs into practice (eg by giving to charity and saying sorry 1.4)	studied and how people live, individually and in communities (eg how people try to make the world a better place 2.12 / promises God has made and promises make at a wedding ceremony 2.2)  b) Explain how people show their beliefs in how they worship and in the way they live	studied and how people live, individually and in communities (eg beliefs about love and commitment 2.11)  b) Explain how people show their beliefs in how they worship and in the way they live (eg beliefs about God the Trinity in baptism and prayer 2.3)	and how they live, individually and in communities (eg through how Cathedrals are designed 2.1)  b) Using evidence and examples, show how and why people put their beliefs into practice in different ways, eg in different communities, denominations or cultures (eg 2.10 or 2.11)	and how they live, individually and in communities (eg Christians' actions during Holy Week)  b) Using evidence and examples, show how and why people put their beliefs into practice in different ways, eg in different communities, denominations or cultures (Holy Week 2.5)
Make connections between religious and non-religious beliefs, concepts, practices and ideas studied (3)	a) Explain some similarities and differences between life in this country and life in other countries. (UW)	b) Think, talk and ask questions about whether the ideas they have been studying, have something to say to them.	a) Think, talk and ask questions about whether the ideas they have been studying, have something to say to them (eg recognise what they have to be thankful for 1.3)	a) Raise important questions and suggest answers about how far the beliefs and practices studied might make a difference to how pupils think and live (eg the importance of love in the Bible 2.4)	a) Raise important questions and suggest answers about how far the beliefs and practices studied might make a difference to how pupils think and live (eg Christians calling the day Jesus dies Good Friday 2.5)	a) Make connections between the beliefs and practices studied, evaluating and explaining their importance to different people (eg believers and atheists)	a) Make connections between the beliefs and practices studied, evaluating and explaining their importance to different people (eg believers and atheists Genesis 1 / Life Gets Hard)

		b) Give a good reason for the views they have and the connections they make (eg why everyone should care for the world)	b) Give a good reason for the views they have and the connections they make (eg give reasons for why people like to belong to a community 1.8)	b) Suggest links between some of the beliefs and practices studied and life in the world today, expressing some ideas of their own clearly giving reasons (eg. the story of Noah and how we live .2.2)	b) Suggest links between some of the beliefs and practices studied and life in the world today, expressing some ideas of their own clearly giving reasons (eg the ideas of love, commitment and promises made in religious and non-religious ceremonies 2.11)	b) Reflect on and reach conclusions about how people might gain from the beliefs/practices studied, including their own responses, recognising that others may think differently (how the teachings of God might make a different today 2.1). c) Consider and make reasoned judgements how ideas studied in this unit relate to their own experiences and experiences of the world today, developing insights of their own and giving good reasons for the views they have and the connections they make (beliefs about the Messiah 2.3).	b) Reflect on and reach conclusions about how people might gain from the beliefs/practices studied, including their own responses, recognising that others may think differently (eg Genesis 1 / idea of sacrifice 2.5/ Life gets Hard). c) Consider and make reasoned judgements how ideas studied in this unit relate to their own experiences and experiences of the world today, developing insights of their own and giving good reasons for the views they have and the connections they make (eg Creation 2.2)
Other World Religion: Make sense of a range of religious beliefs (4)	Hinduism (Diwali) a) b) Chinese New Year	Judaism a) Identify core beliefs and concepts studied and give a simple description of what they mean (eg recognise the words of the Shema as a Jewish Prayer)	Islam a) Identify core beliefs and concepts studied and give a simple description of what they mean (eg recognise the words of the Shahadah)	Hinduism a) Explain the core beliefs and concepts studied (eg explain how Hindu deities help Hindus describe God)	Islam a) Explain the core beliefs and concepts studied (eg beliefs about God)	Hinduism a) Identify and explain the core beliefs and concepts studied, using examples from sources of authority in religions (eg explain key Hindu beliefs)	Judaism a) Identify and explain the core beliefs and concepts studied, using examples from sources of authority in religions
		b) Give examples of how stories show what people believe	b) Describe how stories show what people believe (eg stories of the	b) Make clear links between texts/sources of authority and the key concepts studied (eg the	b) Make clear links between texts/sources of authority and the key concepts studied (eg	b) Describe examples of ways in which people use texts/sources of	b) Describe examples of ways in which people use

		(eg Shabbat and how this celebration reminds Jews about what God is like)	prophet showing what Muslims believe about Muhammad)	story of Diwali and Ganesh and Hindu beliefs about God  c) Suggest what texts/sources of authority can mean and give examples of what these sources mean to believers (eg what Hindu murtis express about God)	how Muslims submit to God)  c) Suggest what texts/sources of authority can mean and give examples of what these sources mean to believers (eg how the Five Pillars guide a Muslim's life)	authority to make sense of core beliefs and concepts  c) Give meanings for texts/sources of authority studied, comparing these ideas with ways in which believers interpret texts/sources of authority (eg story of man in the well)	texts/sources of authority to make sense of core beliefs and concepts  c) Give meanings for texts/sources of authority studied, comparing these ideas with ways in which believers interpret texts/sources of authority
Understand the impact and	a) Show sensitivity to their own and to other's needs. (PSED)	a) Give examples of how people use stories, texts and teachings to guide their beliefs and actions (eg how Jews celebrate Shabbat, Sukkot)	a) Give examples of how people use stories, texts and teachings to guide their beliefs and actions (eg recognise that Muslims use the Shahadah to show what matters to them).	a) Make simple links between stories, teachings and concepts studied and how people live, individually and in communities (eg Hindu beliefs about God and how they live)	a) Make simple links between stories, teachings and concepts studied and how people live, individually and in communities (eg prayer, fasting and celebrating)	a) Make clear connections between what people believe and how they live, individually and in communities (eg dharma, karma etc and the way Hindus live)	a) Make clear connections between what people believe and how they live, individually and in communities (eg treatment of the Torah)
significance of Religious and non-religious beliefs (5)		b) Give examples of ways in which believers put their beliefs into practice (eg how Jews remember God in different ways - mezuzah/ Shabbat).	b) Give examples of ways in which believers put their beliefs into practice (eg putting beliefs about prayer into action/how Muslims tread the Qur'an).	b) Explain how people show their beliefs in how they worship and in the way they live (eg puja in the home)	b) Explain how people show their beliefs in how they worship and in the way they live (eg zakah	b) Using evidence and examples, reach conclusions why people put their beliefs into practice in different ways, eg in different communities, denominations or cultures	b) Using evidence and examples, show how and why people put their beliefs into practice in different ways, eg in different communities, denominations or cultures (eg difference between orthodox and progressive Jewish practice)
Make	a) Explain some	a) Think, talk and	a) Think, talk and	a) Raise important	a) Raise important	a) Make connections	a) Make connections

# **Expectations of our Year 1 students learning about what people believe:**

By the end of Year 1, our students are developing into *gatherers* by demonstrating an understanding of what people believe and the difference this makes to how they live:

#### Linked to Christianity:

- 1. Simply retell the story of the Lost Son and recognise that there is a link with the Christian idea of God as a forgiving Father.
- 2. Give examples of how people use stories, texts and teachings to guide their beliefs and actions (eg Christians forgive others and say thank you and sorry to God)
- 3. Think, talk and ask questions about whether the ideas they have been studying, and have something to say to them.

#### Linked to Judaism:

- 1. Give examples of how stories show what people believe (eg how the Shabbat weekly celebration reminds Jews about what God is like)
- 2. Give examples of how people use stories, texts and teachings to guide their beliefs and actions (eg how Jews celebrate Shabbat, Sukkot)
- 3. Think, talk and ask questions about whether the ideas they have been studying, and have something to say to them (eg is it good to remember the past as Jews do during their celebration?)

# **Expectations of our Year 3 students learning about what people believe:**

By the end of Year 3 our students are developing into *explainers* by demonstrating an understanding of what people believe and can explain the difference this makes to how they live:

#### Linked to Christianity:

- 1. Explain the core beliefs and concepts studied (Genesis 1 story as the beginning of the Bible's Big Story (2.1)
- 2. Make simple links between stories, teachings and concepts studied and how people live, individually and in communities (eg how people try to make the world a better place 2.12 / promises God has made and promises make at a wedding ceremony 2.2)
- 3. Raise important questions and suggest answers about how far the beliefs and practices studied might make a difference to how pupils think and live (eg the importance of love in the Bible 2.4)

# Expectations of our Year 2 students learning about what people believe:

By the end of Year 1, our students are secure *gatherers* by demonstrating an understanding of what people believe and the difference this makes to how they live:

#### Linked to Christianity:

- 1. Identify core beliefs and concepts studied and give a simple description of what they mean (eg recall the account of Jesus' birth and/or story of Matthew the Tax Collector)
- 2. Give examples of ways in which believers put their beliefs into practice (eg by giving to charity and saying sorry 1.4)
- 3. Give a good reason for the views they have and the connections they make (eg give reasons for why people like to belong to a community 1.8)

#### Linked to Islam:

- 1. Describe how stories show what people believe (eg stories of the prophet showing what Muslims believe about Muhammad)
- 2. Give examples of ways in which believers put their beliefs into practice (eg putting beliefs about prayer into action/how Muslims treat the Qur'an).
- 3. Think, talk and ask questions about whether the ideas they have been studying, have something to say to them (eg talk about what might be good about Muslim's routine of praying and their need for self-control)

## **Expectations of our Year 4 students learning about what people believe:**

By the end of Year 4 our students are secure *explainers* by demonstrating an understanding of what people believe and can explain the difference this makes to how they live:

#### Linked to Christianity:

- 1. Explain the core beliefs and concepts studied (eg during Holy Week Christian belief that Jesus came to rescue or save people 2.5)
- 2. Explain how people show their beliefs in how they worship and in the way they live (eg beliefs about God the Trinity in baptism and prayer 2.3)
- 3. Raise important questions and suggest answers about how far the beliefs and practices studied might make a difference to how pupils think and live (eg Christians calling the day Jesus dies Good Friday 2.5)

#### Linked to Hinduism:

- 1. Explain the core beliefs and concepts studied (eg explain how Hindu deities help Hindus describe God)
- 2. Explain how people show their beliefs in how they worship and in the way they live (eg puja in the home)
- 3. Raise important questions and suggest answers about how far the beliefs and practices studied might make a difference to how pupils think and live (eg whether it is good to think about the cycle of create, preserve, destroy)

#### Linked to Islam:

- 1. Suggest what texts/sources of authority can mean and give examples of what these sources mean to believers (eg how the Five Pillars guide a Muslim's life)
- 2. Explain how people show their beliefs in how they worship and in the way they live (eg zakah)
- 3. Raise important questions and suggest answers about how far the beliefs and practices studied might make a difference to how pupils think and live (eg the value of self-control)

# **Expectations of our Year 5 students learning about what people believe:**

By the end of Year 5 our students are developing into *evaluators* by demonstrating an understanding of what people believe, the difference this makes to how they live and can handle questions about religions and belief:

#### Linked to Christianity:

- 1. Identify and explain the core beliefs and concepts studied, using examples from sources of authority in religions (eg different types of text 2.1)
- 2. Make clear connections and reach conclusions about what people believe and how they live, individually and in communities (eg through how Cathedrals are designed 2.1)
- 3. Reflect on and reach conclusions about how people might gain from the beliefs/practices studied, including their own responses, recognising that others may think differently (eg how the teachings of God might make a different today 2.1)

#### Linked to Hinduism:

- 1. Give meanings for texts/sources of authority studied, comparing these ideas with ways in which believers interpret texts/sources of authority (eg story of man in the well)
- 2. Using evidence and examples, reach conclusions why people put their beliefs into practice in different ways, (eg in different communities, denominations or cultures Ghandi, Athavale)
- 3. Consider and make judgements about ideas studied while learning about Hinduism and relate these ideas to their own experiences and experiences of the world today, developing insights of their own and giving good reasons for the views they have and the connections they make

## Expectations of our Year 6 students learning about what people believe:

By the end of Year 6 our students are secure *evaluators* by demonstrating an understanding of what people believe, the difference this makes to how they live and can handle questions about religions and belief:

#### Linked to Christianity:

- 1. Identify and explain the core beliefs and concepts studied, using examples from sources of authority in religions (eg Genesis 1)
- 2. Make clear connections and reach conclusions about what people believe and how they live, individually and in communities (eg Christians' actions during Holy Week)
- 3. Reflect on and reach conclusions about how people might gain from the beliefs/practices studied, including their own responses, recognising that others may think differently (eg Genesis 1 / idea of sacrifice 2.5/ Life gets Hard).

#### Linked to Judaism:

- 1. Give meanings for texts/sources of authority studied and reach conclusions about these ideas with ways in which believers interpret texts/sources of authority (eg what texts say about God)
- 2. Make clear connections between what people believe and how they live, individually and in communities (eg treatment of the Torah)
- 3. Consider and make judgements about ideas studied in this unit relate to their own experiences and experiences of the world today, developing insights of their own and giving good reasons for the views they have and the connections they make. (eg tradition, ritual, worship in their lives)

## **History** (H1/1a – H7/6b)

	a) U nderstan d the past through settings, character and events encounte	a) Begin to develop an awareness of the past through observing and describing personal experience and stories	a) Develop an awareness of the past through observing and describing the recorded experiences of others	a) Using scaffolds to support, write an account to describe and explain a historical event, using evidence.	a) Begin to write an account to describe and explain a historical event, using evidence.	a) Write accounts to describe and explain historical events and begin to use evidence to form reasoned judgements/ conclusions.	a) Write accounts to describe and explain historical events, using evidence to form reasoned judgements/ conclusions.	
Talk and write about events that happened in the past	red in books read in class and storytellin g. b) Know some	b) Use common words and phrases relating to the passing of time, e.g. Past, before, now, then to identify and describe events in the past in discussion.	b) Use a wide vocabulary of everyday historical terms in discussion and starting to in written work	b) Begin to select appropriate language from a range of historical vocabulary in verbal and written work.	b) Select appropriate language from a range of historical vocabulary in verbal and written work.	b) Begin to demonstrate an understanding of the appropriate use of historical language and vocabulary in verbal and written work.	b) Consistently demonstrate an understanding of the appropriate use of historical terms in verbal and written work.	
using evidence (1)	similaritie s and differenc es between things in the past and now, drawing on their experienc e and what has been read in class.		c) Use common words and phrases relating to the passing of time to compare and contrast periods of time in written work and discussion	c) Begin to demonstrate an understanding of the appropriate use of historical terms	c) Demonstrate an understanding of the appropriate use of historical terms	c) Create clear narratives within a given period explaining how and why they existed, using evidence to justify.	c) Create clear narratives within and across historical periods, explaining how and why they existed and making links between them, using evidence to justify	

Ask and answer questions	a) Show curiosity about the past, selecting questions to ask	a) Ask and answer questions, selecting and using parts of stories and other sources to show that they know and understand key features of events.	a) Begin to suggest lines of enquiry based on artefacts or historical events.	a) Suggest lines of enquiry based on artefacts or historical events.	a) Begin to respond to and sometimes create historical questions about change, cause, similarity and difference and significance.	a) Respond to and sometimes create historical questions about change, cause, similarity and difference and significance.
about the past (2)			b) Begin to create thoughtful responses that involve selecting and categorising relevant historical information	b) Create thoughtful responses that involve selecting and categorising relevant historical information	b) Begin to reach informed conclusions that involve thoughtful selection and organisation of historical knowledge	b) Reach informed conclusions that involve thoughtful selection and organisation of historical knowledge.
How we know what happened in	a) Recognise some of the ways in which we find out about the past	a) Recognise some of the ways in which we find out about the past and identify different ways in which it is represented.	a) Begin to demonstrate understanding of and explain how our knowledge of the past is constructed from a range of sources and that different versions of past events may exist.	a) Demonstrate understanding of and explain how our knowledge of the past is constructed from a range of sources and that different versions of past events may exist.	a) Begin to demonstrate an understanding of methods for historical enquiry; how evidence is used to make historical claims.	a) Demonstrate an understanding of methods for historical enquiry; how evidence is used to make historical claims.
the past (3)			b) Begin to suggest and reason why different people may have given differing accounts of the same historical event.	b) Suggest and reason why different people may have given differing accounts of the same historical event.	b) Begin to empathise in order to consider the view point of each person.	b) Empathise in order to consider the view point of each person.
Order events from the past (4)	a) Recognise and identify where the people and events they study fit within a chronological (sequential) framework linked to their own experience, e.g. relative to great	a) Recognise and identify where the people and events they study fit within a chronological framework that is beyond their own experiences	a) Recall and sequence significant periods in British history, identifying BC and AD eras.	a) Recall and sequence time periods studied, demonstrating understanding of BC and AD eras.	a) Recall and sequence periods studied on a world history timeline.	a) Demonstrate an understanding of and sequence significant historical events and periods studied fit on a world history timeline.

Difference	grandparents, parents etc.  a) Recognise that things change with the passing of time within their own experience.	a) Identify, compare and contrast ways of life in different periods	a) Begin to create (synthesise) and respond to historical questions about change, cause, similarity and difference.	a) Create (synthesise) and respond to questions about change, cause, similarity and difference	a) Begin to identify some connections, contrasts and trends over time, reaching informed conclusions suggesting reasons as to how and why.	a) Identify some connections, contrasts and trends over time, reaching informed conclusions as to how and why.
and change over time (5)	b) Categorise objects/images from the past and present	b) Categorise wider range of objects/images from the past and present	b) Begin to recognise some connections, differences and patterns over time and explain why they may exist.	b) Recognise some connections, differences and patterns over time and explain why they	b) Continue to recognise some connections, differences and patterns over time	b) Begin to evaluate different accounts of the same historical events to form reasoned judgements about their
	c) Begin to describe thoughts and recall stories through pictures, words, role play and construction.	c) Describe thoughts and recall stories through pictures, words, role play and construction		may exist.	and explain why they may exist.	importance/ validity.
Why some events from the past are significant	a) Begin to recognise that some events in the past change people's lives, e.g. someone invents the plane then people can fly	a) Recognise that some events in the past change people's lives, e.g. the impact of The Great Fire of London or Stephenson's Rocket.	a) Begin to explore the impact/ legacy of significant events and people and explain why they are important, e.g. The discovery of The Rosetta Stone.	a) Suggest reasons for the impact/ legacy of significant events and people and explain why they are important, e.g. The battle between the Iceni and the Romans	a) Begin to form reasoned judgements about decisions made in the past and their impact on the world today.	a) Form reasoned judgements about decisions made in the past and their impact on the world today.
(6)					b) Begin to hypothesise, using evidence, how our actions may impact tomorrow's world.	b) Hypothesise, using evidence, how our actions may impact tomorrow's world.
How the past may affect our lives today			a) Begin to express thoughts and opinions about historical events and their impact, through summarising key points and ideas.	a) Express thoughts and opinions about historical events and their impact, through summarising key points and ideas.	a) Begin to understand and evaluate the impact/ legacy of periods studied on the UK/world	a) Understand and evaluate the impact/ legacy of periods studied on the UK/world b) Demonstrate an understanding of social,

## **Expectations of our Year 1 Historians**

By the end of Year 1 and using a range of (primary and secondary) historical sources, our young historians are developing into *gatherers* and demonstrate developing understanding of the differences between the past and present and how we know what happened in the past to:

- 1. Use common words and phrases relating to the passing of time, e.g. Past, before, now, then to identify and describe events in the past in discussion
- 2. Recognise and identify where the people and events they study fit within a chronological (sequential) framework linked to their own experience, e.g. relative to great grandparents, parents etc.
- 3. Recognise that things change with the passing of time within their own experience.

## **Expectations of our Year 2 Historians**

By the end of year 2 and using a range of (primary and secondary) historical sources, our young historians have become secure *gatherers* and demonstrate an understanding of the differences between the past and present and how we know what happened in the past to:

- 1. Use a wide vocabulary of everyday historical terms in discussion and start to in written work
- 2. Ask and answer questions, selecting and using parts of stories and other sources to show that they know and understand key features of events.
- 3. Recognise and identify where the people and events they study fit within a chronological framework that is beyond their own experiences
- 4. Identify, compare and contrast ways of life in different periods

## **Expectations of our Year 3 Historians**

By the end of Year 3 and using a range of (primary and secondary) historical sources, our young historians are developing into *explainers* and demonstrate developing understanding of how and why we research the past and how to explain its impact on the present.

- 1. Begin to select appropriate language from a range of historical vocabulary in verbal and written work.
- 2. Begin to suggest lines of enquiry based on artefacts or historical events.
- 3. Recall and sequence significant periods in British history, identifying BC and AD eras.
- 4. Begin to create (synthesise) and respond to historical questions about change, cause, similarity and difference.
- 5. Begin to recognise some connections, differences and patterns over time and explain why they may exist.

## **Expectations of our Year 4 Historians**

By the end of Year 4 and using a range of (primary and secondary) historical sources, our young historians have become secure *explainers* and demonstrate an understanding of how and why we research the past and explain how it has impacted the present.

- Select appropriate language from a range of historical vocabulary in verbal and written work
- 2. Suggest lines of enquiry based on artefacts or historical events.
- 3. Recall and sequence time periods studied, demonstrating understanding of BC and AD eras.
- 4. Create (synthesise) and respond to questions about change, cause, similarity and difference
- 5. Recognise some connections, differences and patterns over time and explain why they may exist.

## **Expectations of our Year 5 Historians**

## **Expectations of our Year 6 Historians**

By the end of Year 5 and using a range of (primary and secondary) historical sources, our young historians are developing into *evaluators* and demonstrate developing understanding of evaluating how the past impacted the people who lived in the past as well as future generations.

- 1. Begin to demonstrate an understanding of the appropriate use of historical terms in verbal and written work.
- 2. Begin to respond to and sometimes create historical questions about change, cause, similarity and difference and significance.
- 3. Recall and sequence periods studied on a world history timeline.
- 4. Begin to identify some connections, contrasts and trends over time, reaching informed conclusions suggesting reasons as to how and why.
- 5. Continue to recognise some connections, differences and patterns over time and explain why they may exist.

By the end of Year 6 and using a range of (primary and secondary) historical sources and by the end of Year 6, our young historians have become secure *evaluators* and demonstrate an understanding of and how to evaluate how the past impacted the people who lived in the past as well as future generations.

- 1. Consistently demonstrate an understanding of the appropriate use of historical terms in verbal and written work.
- 2. Respond to and sometimes create historical questions about change, cause, similarity and difference and significance.
- 3. Demonstrate an understanding of and sequence significant historical events and periods studied fit on a world history timeline.
- 4. Identify some connections, contrasts and trends over time, reaching informed conclusions suggesting reasons as to how and why.
- 6. Begin to evaluate different accounts of the same historical events to form reasoned judgements about their importance/ validity.

## Geography (G1/FSUa - G4/6c)

Yr	FSU	1	2	3	4	5	6
TI	Explorers	Gath	Gatherers		Explainers		aluators
Countries and continents (1)	a) Describe immediate environment using knowledge from observation, discussion, stories, non-fiction texts and maps.	a) Begin to use world maps and globes to identify the United Kingdom and its countries b) Use a map of the UK to identify the area where they live	a) Use world maps, atlases and globes to identify the United Kingdom and recall the names of its countries, as well as the countries, continents and oceans studied, eg India and Africa (linked to animals)	a) Begin to use maps, atlases, globes and digital/computer mapping to identify continents and countries.	a) Use maps, atlases, globes and digital/computer mapping to identify continents and countries.	a) Begin to apply knowledge of maps, atlases, globes and digital/computer mapping to identify countries and begin to describe features studied	a) Apply knowledge of maps, atlases, globes and digital/computer mapping to identify countries and describe features studied

Places and features Directions and locations (2)	a) Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and when appropriate, maps.	a) Begin to recognise simple compass directions (N,S,E,W) & locational and directional language [eg near and far; left & right], to describe the location of features and routes on a map  b) Begin to describe the location of features and routes and routes on a map	a) Recognise simple compass directions (N, S, E & W) and locational and directional language [for example, near and far; left and right].  b) Describe the location of features and routes on a map	a) Recognise the four points of a compass and use them to identify locations and give directions b) Demonstrate understanding of two -figure grid references to identify locations and give direction c) Recognise symbols and key to build knowledge of places in the UK and around the world by identifying locations and key features (human and physical) d) Begin to identify the position of the equator, hemispheres and tropics.	a) Begin to demonstrate understanding of the eight points of a compass and use them to identify locations and give directions  b) Begin to demonstrate understanding of four -figure grid references to identify locations and give directions  c) Recognise symbols and key (including use of OS Survey maps) to build knowledge of places in the UK by identifying locations and key features (human and physical)  d) Identify the position of the equator, hemispheres and tropics.	a) Demonstrate understanding of the eight points of a compass and apply this to compare locations and give directions using maps of the local area  b) Demonstrate understanding of four and begin to use six - figure grid references (including the use of Ordnance Survey maps) to identify key locations and features using maps of the local area.  c) Recognise symbols and keys (including use of OS Survey maps) to build knowledge of places with/in the UK and locations studied, comparing and contrasting physical and human features including contour lines.  d) Begin to identify the position and significance of lines of latitude and longitude, Greenwich Meridian and time zones.	a) Demonstrate understanding of the eight points of a compass to compare locations and apply this to give directions using maps of locations studied as well as on a global scale.  b) Demonstrate understanding of four and six -figure grid references (including the use of Ordnance Survey maps) to identify key locations and features using maps of areas studied in the UK (OS maps) and in other countries (atlases).  c) Recognise symbols and keys (including the use of Ordnance Survey maps) to build knowledge of places with/in the UK and locations studied, comparing and contrasting physical and human features including contour lines.  d) identify the position and significance of lines of latitude and longitude, Greenwich Meridian and time zones.	

c) Devise a s map (story l		e) Use knowledge of human and physical	e) Select features to suggest reasons for	e) Use features identified to begin	e) Be able to justify which map would be most useful
and select b	asic map (from a basic	features, eg	particular	justifying reasons for	for the information

Using evidence (4)				a) Begin to recognise that people's lives can be impacted by changes to human and physical features, eg earthquakes and building and start to be able to explain the impact using understanding of the features studied to give reasons.	a) Recognise that people's lives can be impacted by changes to human and physical features, eg earthquakes and building and be able to explain the impact using understanding of the features studied to give reasons  b) Use knowledge of physical features and their impact on human features to make choices about locations for a planned settlement, eg bridging points and risks of flooding.  c) Be able to summarise the key reasons for the decisions made.	a) Begin to use knowledge of human and physical features to evaluate the actual/potential impact of changes to the environment on the people who live there, eg flooding, development of cities.  b) Begin to hypothesise scenarios that could impact positively/ negatively on these people, beginning to demonstrate the ability to empathise.  c) Begin to make reasoned judgements about decisions made and critique those of others, justifying judgements made.	a) Use knowledge of human and physical features to evaluate the impact of changes to the environment on the people who live there, eg flooding, development of cities.  b) Hypothesise scenarios that could impact positively/negatively on these people, demonstrating the ability to empathise.  c) Make reasoned judgements about decisions made and critique those of others, justifying judgements made.
--------------------	--	--	--	--	--	---	---

## **Expectations of our Year 1 Geographers**

By the end of Year 1 and using first hand fieldwork experiences as well as secondary sources, our young geographers are developing into *gatherers* and demonstrated they can use a range of simple geographical techniques, enquiry skills and terms to begin to understand about the environment around us and the impact of the people who live there.

- 1. Begin to use world maps and globes to identify the United Kingdom and its countries
- 2. Begin to recognise simple compass directions (N,S,E,W) & locational and directional language [eg near and far; left & right], to describe the location of features and routes on a map
- 3. Begin to describe the location of features and routes on a map
- 4. Compare personal geography to someone else's, identifying features that are similar and different.

## **Expectations of our Year 2 Geographers**

By the end of Year 2 and using first hand fieldwork experiences as well as secondary sources, our young geographers will have become secure *gatherers* and demonstrated they can use a range of simple geographical techniques, enquiry skills and terms to understand about the environment around us and the impact of the people who live there.

- 1. Use world maps, atlases and globes to identify the United Kingdom and recall the names of its countries, as well as the countries, continents and oceans studied, eg India and Africa (linked to animals)
- 2. Recognise simple compass directions (N, S, E & West) and locational and directional language [eg, near and far; left and right].
- 3. Describe the location of features and routes on a map
- 4. Use simple fieldwork and observational skills to compare the geography of the key human and physical features of Appledore and Indian village.

## **Expectations of our Year 3 Geographers**

By the end of Year 3 and using first hand fieldwork experiences as well as secondary sources, our young geographers are developing in to *explainers* and demonstrated they can use a range of geographical techniques, enquiry skills and terms to begin to understand and explain how and why we have can have an impact on the changing world around us.

- 1. Begin to use maps, atlases, globes and digital/computer mapping to identify continents and countries.
- 2. Recognise the four points of a compass and use them to identify locations and give directions
- 3. Demonstrate understanding 2-figure grid references to identify locations and give direction
- 4. Recognise symbols and key to build knowledge of places in the UK and around the world by identifying locations and key features (human and physical)
- 5. Begin to be able to compare two contrasting locations, using their human and physical features, climate and global position to explain their differences

## **Expectations of our Year 4 Geographers**

By the end of Year 4 and using first hand fieldwork experiences as well as secondary sources, our young geographers will have become secure *explainers* and demonstrated they can use a range of geographical techniques, enquiry skills and terms to understand and explain how and why we have can have an impact on the changing world around us.

- 1. Use maps, atlases, globes and digital/computer mapping to identify continents and countries.
- 2. Identify the position of the equator, hemispheres and tropics.
- 3. Begin to demonstrate understanding of 4-figure grid references to identify locations and give directions
- 4. Recognise symbols and key (including use of OS Survey maps) to build knowledge of places in the UK by identifying locations and key features (human and physical)
- 5. Be able to compare two contrasting locations, using their human and physical features, climate and global position to explain their differences

## **Expectations of our Year 5 Geographers**

## **Expectations of our Year 6 Geographers**

By the end of Year 5 and using first hand fieldwork experiences as well as secondary sources, our young geographers are developing into *evaluators* and demonstrated they can use a range of geographical techniques, enquiry skills and terms to begin to understand and evaluate the impact of human and environmental factors on the changing world around us.

- 1. Begin to apply knowledge of maps, atlases, globes and digital/computer mapping to identify countries and begin to describe features studied
- 2. Demonstrate understanding of the eight points of a compass and apply this to compare locations and give directions using maps of the local area
- 3. Demonstrate understanding of four and begin to use six -figure grid references (including the use of Ordnance Survey maps) to identify key locations and features using maps of the local area.
- 4. Recognise symbols and keys (including use of OS Survey maps) to build knowledge of places with/in the UK and locations studied, comparing and contrasting physical and human features including contour lines.
- 5. Compare two different locations, looking at their human and physical features and begin to reach informed conclusions as to how and why they are different.

By the end of Year 6 and using first hand fieldwork experiences as well as secondary sources, our young geographers will have become secure *evaluators* and demonstrated they can use a range of geographical techniques, enquiry skills and terms to understand and evaluate the impact of human and environmental factors on the changing world around us.

- 1. Apply knowledge of maps, atlases, globes and digital/computer mapping to identify countries and describe features studied
- 2. Demonstrate understanding of the eight points of a compass to compare locations and apply this to give directions using maps of locations studied as well as on a global scale.
- 3. Demonstrate understanding of four and six -figure grid references (including the use of Ordnance Survey maps) to identify key locations and features using maps of areas studied in the UK (OS maps) and in other countries (atlases).
- 4. Recognise symbols and keys (including the use of Ordnance Survey maps) to build knowledge of places with/in the UK and locations studied, comparing and contrasting physical and human features including contour lines.
- 5. Compare two different locations, looking at their human and physical features and reach informed conclusions as to how and why they are different.
